ACKNOWLEDGEMENTS

I am sincerely thankful my advisor, Assoc. Prof. Dr. Soontorn Khamyong for his patience, kindness and guidance on the overall of research works during my study. Special thanks are to Dr. Niwat Anongrak, one of my thesis co-advisor, for suggestions and thesis manuscript correction about soil science, and Assoc. Prof. Dr. Kriangsak Sri-ngernyuang, one of my thesis co-advisor, for his kindness, comments, suggestions and thesis manuscript correction on plant ecology.

I would like to thank Assoc. Prof. Dr. Savent Pampasit and Dr. Arawan Shutsrirung for their kindness to give suggestions on various aspects and corrections of my thesis manuscript.

This research was received some financial supports from the Graduated School of Chiang Mai University. I would like to thank the head of Boakaew Watershed Station, Mr. Nirun Khamtong, and his staffs for facilities and help during collection of field data. Also, I sincerely thank Mr. Somchai Nongnuang, Ms. Kanitta Satienperakul and Mr. Taparat Seeloy-ounkeaw for their help especially data collection in the field.

Finally, I would like to give my thanks to my parents for their love, understanding and for their patience in looking forward to my success.

Ampai Pornleesangsuwan
