| CHAPTER I INTRODUCTION | 1 |
| 1.1 Background | 1 |
| 1.2 Problems and Rationales | 8 |
| 1.3 Literature review | 10 |
| 1.4 Objectives | 13 |
| 1.5 Limitations and Scope of the study | 14 |
| | |
| CHAPTER II RESEARCH METHODS | 15 |
| 2.1 Data collection | 15 |
| 2.2.1 Secondary data | 15 |
| 2.2.2 Primary data | 16 |
| 2.2.3 Sampling technique | 16 |
| 2.2 Data analysis | 17 |
| 2.2.1 Technical Efficiency Relative to a Frontier Production - -Function | 18 |
| 2.2.2 Nonparametric Model | 19 |
| 2.2.3 Empirical Model | 25 |
| 2.2.4 Descriptive Statistics of the variables | 26 |
| | |
| CHAPTER III CHACRACTERISTICS OF THE STUDY AREA | 28 |
| 3.1 Description of the study area | 28 |
| 3.1.1 General characteristics of the Central Highlands region | 28 |

| | |
|---|-----------|
| 3.1.2 Coffee production of the study area | 32 |
| 3.2 Government Policies | 34 |
| 3.2.1 Incentive policies in the agricultural sector | 34 |
| 3.2.2 Policies and strategies related to the development of the Central Highlands | 38 |
| 3.3 Background on the firms interviewed | 39 |
| 3.3.1 Distribution of coffee processing firms surveyed | 39 |
| 3.3.2 Time of establishment and technological innovations of the coffee processing firms surveyed | 40 |
| 3.3.3 Size of the coffee processing firms surveyed | 42 |
| 3.3.4 Processing machines of the coffee processing firms | 43 |
| 3.3.5 Education level of laborers | 47 |
| 3.4 Summary | 48 |
| | |
| CHAPTER IV COFFEE PROCESSING SYSTEMS IN THE CENTRAL HIGHLANDS OF VIETNAM | 49 |
| 4.1 Overview of coffee processing | 49 |
| 4.1.1 Coffee processing methods | 49 |
| 4.1.2 Quality of Vietnamese coffee | 57 |
| 4.2 Coffee processing systems in the Central Highlands, Vietnam | 59 |
| 4.2.1 Private coffee farms and state coffee plantations | 60 |
| 4.2.2 Village collectors, coffee merchants, and coffee agents | 61 |
| 4.2.3 State coffee processing firms | 62 |
| 4.2.4 Other factors involved in coffee processing systems | 63 |
| 4.2.4.1 Economic environment factors | 64 |
| a) Trends of the world coffee market – opportunities and threats for the Vietnamese coffee industry | 64 |
| b) Competition among coffee exporters in the world market | 65 |
| c) Vietnamese coffee market situation | 66 |
| 4.2.5 Social factors | 68 |
| 4.2.5.1 Access to credit | 68 |
| 4.2.5.2 Access to information | 69 |

| | |
|--|-----------|
| 4.2.6 Ecological and physical environments | 69 |
| 4.3 Summary of existing coffee processing system | 70 |
| CHAPTER V COST AND RETURN ANALYSIS | 72 |
| A COST AND RETURN ANALYSIS | 72 |
| 5.1 Input structure in the firms interviewed | 72 |
| 5.1.1 Types of processing firms | 72 |
| 5.1.2 Input structure in the firms interviewed | 73 |
| 5.2 Outputs structure in the firms interviewed | 76 |
| 5.2.1 Coffee bean standard for export | 76 |
| 5.2.2 Outputs structure in the firms interviewed | 77 |
| 5.3 Cost and returns of coffee processing firms surveyed | 79 |
| 5.3.1 Cost analysis | 79 |
| 5.3.2 Returns analysis | 81 |
| B Economics Efficient Analysis | 83 |
| 5.4 Profitability of coffee processing firms | 83 |
| 5.5 Nonparametric Models | 85 |
| 5.5.1 Descriptive statistics of the variables | 85 |
| 5.5.2 Programming models | 87 |
| 5.6 Empirical results and discussion | 90 |
| 5.6.1 Index of economics efficiency of coffee processing firms under bounded- technology condition | 90 |
| 5.6.2 Comparing the rates of observed variable expenditure to optimal expenditure of different groups under bounded- technology condition | 92 |
| 5.6.3 The economic efficiency of coffee processing firms under unbounded- technology condition | 95 |
| 5.7 Summary | 97 |
| CHAPTER VI CONCLUSIONS AND RECOMMENDATIONS | 98 |
| 6.1 Summary of the findings | 98 |
| 6.2 Recommendations | 102 |

| | |

| APPENDICES | 110 |
| <i>CURRICULUM VITAE</i> | 122 |

LIST OF TABLES

| Table | | Pag |
|-------|--|-----|
| 1.1 | Coffee production in selected countries from 1990 to 1997 | 2 |
| 1.2 | Sown area and coffee production in Vietnam, 1970-1998 | 5 |
| 1.3 | Vietnam coffee export, 1991-1998 | 6 |
| 3.1 | Selected social-economics characteristic of Central Highlands, 1998 | 27 |
| 3.2 | Coffee area and coffee output of the Central Highlands, 1995-1998 | 29 |
| 3.3 | Percentage of coffee processing firms surveyed classsified by technology used and location, 1998 | 36 |
| 3.4 | Average years of establishment and technological change of the firms surveyed, Central Highlands, 1998 | 37 |
| 3.5 | Average sized of factors indicating size of the coffee processing firms surveyed, Central Highland, 1998 | 38 |
| 3.6 | Machines and Equipment at DAKMAN company | 42 |
| 3.7 | Percentage of labourers in the processing firms surveyed classified by education levels, Central Highland, Vietnam, 1998 | 44 |
| 4.1 | Green bean coffee quality classification for export in Vietnam, 1998 | 50 |
| 5.1 | Average material inputs used per coffee processing firms in the Central Highlands, Vietnam for 1998 | 72 |
| 5.2 | Average quantity and quality of coffee outputs of the firms surveyed for1998 | 77 |
| 5.3 | Total output structure of the coffee processing firms surveyed 1998 | 78 |
| 5.4 | Average cost per firm classified by processing methods in CHL, 1998 | 70 |
| 5.5 | Average costs and revenue per firm, CHL, VN, surveyed in 1998 | 81 |

| | | |
|------|---|----|
| 5.6 | Analysis of Costs and Profit per ton of processed coffee, In the CHL, VN, 1998 | 83 |
| 5.7 | Descriptive statistics of the variables included in the models for wet processing firms, CHL, VN, 1998 | 85 |
| 5.8 | Descriptive statistics of the variables in 27 dried processing firms, CHL, VN, 1998 | 86 |
| 5.9 | Descriptive statistics of the variables in mixed processing firms | 87 |
| 5.10 | Index of efficiency of coffee processing firms and number of efficient firms classified by firm group | 91 |
| 5.11 | Percentage of observed variable expenditure and optimal variable expenditure of wet for constrained and unconstrained firms. | 93 |
| 5.12 | Percentage of observed variable expenditure to optimal variable expenditure of the constrained and unconstrained dried groups. | 94 |
| 5.13 | percent of actual variable expenditures to optimal variable expenditures of the mixed constrained and unconstrained groups. | 95 |
| 5.14 | Index of economic efficiency of coffee processing firms and proportion of efficient firm classified by processing group | 96 |

LIST OF FIGURES

| Figure | | Page |
|--------|---|------|
| 3.1 | The map of seven agroecological regions in Vietnam | 25 |
| 3.2 | Grading green bean coffee by hand and simple local machine | 40 |
| 4.1 | Dissectional view of a coffee fruit | 46 |
| 4.2 | Diagram of primary coffee processing in the Central Highlands, VN | 50 |
| 4.3 | Steps involving in coffee fruit processing showing the various by- products produced | 52 |
| 4.4 | Coffee processing systems in the Central Highlands | 55 |
| 5.1 | Buying prices of coffee beans in Daklak market in 1997-1998 | 72 |
| 5.2 | Programming models for unconstrained wet processing firms | 88 |
| 5.3 | Programming models for constrained wet processing firms | 89 |

ABBREVIATIONS

| | |
|---------|--|
| CHL | Central Highlands of Vietnam |
| Q | Quantity (ton) |
| V | Value in Millions Vietnamese Dong |
| VND | = Vietnamese Dong |
| CF1 | Depreciation cost |
| CF2 | Overhead costs |
| CV1 | Raw material costs |
| CV2 | Energy costs |
| CV3 | Water costs |
| CV4 | Other material costs |
| CV5 | Marketing costs |
| CV6 | Labour costs |
| $E^k 1$ | Raw material costs |
| $E^k 2$ | Total other variables cost except raw material costs |
