CHAPTER I Introduction	
1.1 Background of the study	1
1.2 Problem statement	4
1.3 Objectives of the study	5
1.4 Scope of the study	6
1.5 Usefulness of the study	6
CHAPTER II Literature Review	
2.1 Market performance and efficiency	7
2.2 Market channels	8
2.3 Market integration and price transmission	9
2.4 Agricultural market information service	12

CHAPTER III Methodology of Data Collection and Analysis
3.1 Profile of the study sites for primary data 13
3.2 Method of secondary data collection 15
3.3 Method of analysis 15
3.3.1 Production cost for farmers 16
3.3.2 Marketing cost for farmers 16
3.3.3 Marketing costs for market intermediates 17
3.3.4 Marketing margins for farmers and market intermediates 18
3.3.5 Marketing channels in the study areas 19
3.4 Time series price data analysis 20
3.4.1 Time series data, static and dynamics 20
3.4.2 Serial correlation problems in time series data 21
3.4.3 Stationary and non-stationary 21
3.4.4 Unit root testing 22
3.4.5 Spurious regression 23
3.4.3 Co-integration analysis 23
CHAPTER IV Mung Bean Production and Marketing
4.1 Mung Bean production 25
4.1.1 Social characteristics of the sample households 25
4.1.2 Cropping pattern in selected areas 28
4.1.3 Sown areas and production of mung bean in study sites 28
4.1.4 Resource used in the cultivation of mung bean 29
4.2 Mung Bean distribution system 31
4.3 Mung Bean marketing 32
4.3.1 Marketing practices of farm households 32
4.3.2 Marketable surplus and storage 32
4.3.3 Market information availability and needs of farmers 34
4.3.4 Information of market intermediates in marketing channel 36
4.3.4.1 General profiles of primary collectors 36
4.3.4.2 Summary activities of primary collectors 37
4.3.4.3 General profiles of town wholesalers 39

4.3.4.4 Marketing activities of town wholesalers 40
4.3.4.5 Mung bean marketing in Yangon market 41
4.3.4.6 General profiles of Yangon wholesalers 41
4.3.4.7 Marketing activities of Yangon wholesalers 42
4.3.5 Market information required and used by market intermediates 44
4.3.6 Communication facilities used by Yangon traders 45
4.3.7 Utilization of market information by policymakers 45
4.4 Government intervention in mung bean production and marketing 46
4.5 Government-run market information service 47
4.5.1 Collection of market information 47
4.5.2 Dissemination of market information 49
4.5.3 Export market information 49

CHAPTER V Marketing Costs, Margins and Price Transmission

5.1 Cost and return analysis 51
5.2 Marketing costs of market participants 54
5.2.1 Farmers 54
5.2.2 Agent in the study areas 55
5.2.3 Traders 55
5.3 Marketing margins for farmers and market intermediates 56
5.4 Marketing channels 60
5.4.1 Marketing channels in Thonegwa 60
5.4.2 Marketing channels for Pyinmana 63
5.5 Price transmission 64
5.5.1 The basic statistic of mung bean price 65
5.5.2 Descriptions of the data and their movement 67
5.5.3 Notation and definition 68
5.6 Model result and interpretation 68
5.6.1 Test for stationary of price series 68
5.6.2 Co-integration 72
5.6.2.1 Long-run forward price transmission model 73
5.6.2.2 Long-run backward price transmission model 74

5.6.3 Error Correction Mechanism 75
5.6.3.1 Short-run forward price transmission model 76
5.6.3.2 Short-run backward price transmission model 77

CHAPTER VI Conclusion and Recommendation
6.1 Marketing channel, costs and margins 80
6.2 Market information services 83
6.3 Price transmission 83
6.4 Recommendation 85

REFERENCE 88

APPENDICE 92

LIST OF TABLES

Table		Page
1.1	Shares of agricultural exports in total exports	1
1.2	Sown areas, production and export of pulses	2
1.3	Mung bean sown area and production from 1988 to 2006	3
1.4	Mung bean export among agricultural products from 2004 to 2005	4
3.1	Total sample numbers of interviewees in the study areas	14
4.1	Criteria for the classification of farmers	25
4.2	General information of sample farmers	27
4.3	Sowing and harvesting time of mung bean in the study areas	28
4.4	Sown areas and production of mung bean in the study areas	28
4.5	Seed rate used in the study areas	29
4.6	Summary statistics of resources use in the study areas	30
4.7	Labors used in the study areas	30
4.8	Production and marketing cost per unit in the study areas	31
4.9	Average mung bean yield of the sample farmers in the study areas	31
4.10	Methods used to sell mung bean by average farmer	32
4.11	Production and product marketed of mung bean	33
4.12	Storage purpose of average farmers in the study areas	33
4.13	Sources of price information obtained by farmers	35
4.14	Price formation process	36
4.15	General information of primary collectors	37
4.16	Marketing activities of collectors	38
4.17	General information of town wholesalers	39
4.18	Business of town wholesalers	40
4.19	Other activities of wholesalers	41

4.20	General information of Yangon wholesalers	42
4.21	Mung bean marketing practiced by Yangon traders	43
4.22	Business activities of Yangon traders	43
4.23	The collection points of price information for mung bean	49
5.1	The enterprise budget for production mung bean in Thonegwa	52
5.2	The enterprise budget for production mung bean in Pyinmana	53
5.3	Average marketing margin for mung bean in Thonegwa.	58
5.4	Average marketing margin for mung bean in Pyinmana	59
5.5	Basic statistics for Yangon prices during 2000-2005	65
5.6	Basic statistics for Mandalay prices during 2000-2005	66
5.7	ADF level test for Yangon and Mandalay price series	70
5.8	ADF first different test for Yangon and Mandalay price series	71
5.7	Estimated coefficients of long-run forward price transmission model	73
5.8	Estimated coefficients of long-run backward price transmission model	74
5.9	Estimated coefficients of short-run forward price transmission model	77
5.10	Estimated coefficients of short-run backward price transmission model	78

LIST OF APPENDICES

Appendix		Page
1	Sowing and trading areas of mung bean in Myanmar	92
1.1	Yangon city map	93
1.2	Mandalay city map	94
1.3	Thonegwa map	95
1.4	Pyinmana map	96
2	Statistic of farmers and traders	97
2.1	Summary statistic of farmer in production in Thonegwa	97
2.2	Summary statistic of farmer in production in Pyinmana	98
2.3	Summary statistic of farmer in marketing in Thonegwa	99
2.4	Summary statistic of farmer in marketing in Pyinmana	99
2.5	Summary statistic of marketing agent in Thonegwa	100
2.6	Summary statistic of town wholesaler in Thonegwa	100
2.7	Summary statistic of marketing agent in Pyinmana	101
2.8	Summary statistic of town wholesaler in Pyinmana	101
2.9	Summary statistic of city wholesaler	102
2.10	Summary statistic of exporter	102
3	Augmented Dickey-Fuller test	103
3.1	ADF level test for Yangon market price	103
3.2	ADF level test for Mandalay market price	104
3.3	ADF first different test for Yangon market price	105
3.4	ADF first different test for Mandalay market price	106

4	Co-integration analysis	107
4.1	Yangon long-run forward Mandalay price transmission model	107
4.2	Testing a restriction on α_2 with Wald-F-test	107
4.3	Dickey-Fuller test applied on Yangon price residuals	108
4.4	Mandalay long-run backward Yangon price transmission model	109
4.5	Testing a restriction on β_2 with Wald-F-test	109
4.6	Dickey-Fuller test applied on Mandalay price residuals	110
5	Error correction model	111
5.1	Yangon short-run forward Mandalay price transmission model	111
5.2	Mandalay short-run backward Yangon price transmission model	112
