## ACKNOWLEDGEMENT

The author is greatly indebted to Assoc. Prof. Dr. Attachai Jintrawet, Academic Advisor and Thesis Advisor for constant guidance, timely advice and invaluable help given through out this study. All those educative discussions and motivating words by you that kept me going will be vividly remembered. The author is grateful to Asst. Prof. Dr. Sunthorn Buranaviriyakul, Thesis Advisory Committee member and Assoc. Prof. Dr. Benchaphun Ekasingh, Thesis Advisory Committee member for their magnanimous help and continuous guidance. Also author would like to express sincere gratitude for constructive criticism by Assoc. Prof. Dr. Suwit Laohasiriwong, External Examiner, in improving the thesis.

For all the support, care and guidance, the author would like to express sincere appreciation to Acharn Phrek Gymantasiri. Special thanks go to Dr. Methi Ekasingh, for providing the necessary facilities to use the latest version of SPSS. The author would also like to express heartiest appreciation to Ms. Woraluck Suteerawantana for her consistent support and help. Writing this thesis has been a fun as well as challenging. Part of the fun comes from the MCC friends, who have made contributions. The author would like to take this opportunity to sincerely thank all the academic and non-academic staff of Multiple Cropping Center, Faculty of Agriculture, Chiang Mai University for extending their support during two years of stay in Chiang Mai.

The author would also like to express sincere gratitude to Department of Agriculture, Peoples Democratic Republic of Sri Lanka, for allowing to study in Thailand. Personal appreciation goes to Mr. P. Periyasamy, the then Director General of Agriculture, Department of Agriculture and Mr. K.N. Mankotte, Director, Extension and Training Center, without whose support this scholarship would not have been availed. Also sincere gratitude goes to the Department of Technical and

Economic Cooperation (DTEC), Thailand for providing financial support to undertake this study.

Regarding the fieldwork, the author would like to express sincere gratitude to Agriculture Officers, Agriculture Instructors of the Assistant Director of Agriculture Office (Inter Provincial), Anuradhapura for their cooperation to carry out this study. Special thanks also go to all the farmers and village leaders in Rajanganaya area, who spent their valuable time in conducting of PRAs and completing interview schedules.

This thesis is dedicated to my loving parents for the love, care and blessings they had bestowed on me. This study would not have been completed as smoothly as this, if my wife would not have taken all the trouble to manage our home and children single handedly. Let me take this opportunity to earnestly express my gratitude to my beloved wife, Kamani Ranatunga and two loving sons Ranul and Sandil for being so considerate and constantly providing me the much needed moral support and encouragement.

Pattiyage Chandrasoma Peiris
