ACKNOWLEDGEMENTS

This thesis for a Master of Science in Agronomy is the result of a field study and setup experiment at Agronomy department, Faculty of Agriculture, Chiang Mai University during 2006 - 2009.

It is my pleasure to appreciate the help of many people and institution in the completion of this thesis research, which I cannot acknowledge them all, though I wish I could express the gratitude to everyone.

Fist of all, my sincere thanks go to Prof. Dr. Benjaven Rerkasem, my thesis advisor as well as Chairman of the Thesis Research Committee, to her, I would like to express my gratitude to her invaluable help either in designing and implementing field experiment as well as for most valuable advice. My thanks are extended to Assoc. Prof. Dr. Sansanee Jamjod, Thesis Committee member, for constant guidance, timely advice, invaluable help and suggestion throughout this study. Also, I would like to thank to Asst. Prof. Dr. Pathipan Sutigoolabud Thesis committee exam, I would like express sincere gratitude for constructive criticisms by Dr. Narit YimYam

I am greatly indebted to Assoc. Prof. Dr Dumnern Karladee, chairman of the post graduate committee by department for his encouragement, suggestion, supports and guidance throughout my graduate program.

I am also thanks Mr. Ayut Kongpan and Dr. Jumnian Wongmo for their help with many aspects of this thesis work, from proposal writing to experimental and technical aspect of the mycorriza work and analyses of results.

Many thanks to all staff of the CMUPNlab, Faculty of Agriculture, Chiang Mai University for their support during my study.

Thanks special are also extended to Dr Bounthong Bauhoam director of NAFRI, Mr. Sisongkham Mahathilath, head of URDP Laos-(NAFRI), Mr. Phouthone Sophathilath, head of capacity building component (NAFRI), Mr. Houmchitsavath Sodarak, director of Northern Agriculture and Forestry Research Centre, Mr. Thanoukhom Khannavong, head of financial unit (NAFRI).

During the long period of my study, I have received fund support from Swedish international development agency (Sida).

Finally, a sincere, heartfelt thank to all staff of NAFReC who have been supporting and encouraging me to complete this study.

Vilaphong Kanyasone
