## Acknowledgement

First of all I pledge my sincere gratitude to the Bangladesh Government and Department of Agricultural Extension for providing me the opportunity to learn for this MS degree, the Thailand International Development Cooperation Agency (TICA) for the financial support, and all other institutions and individuals involved for enabling the study happen.

It is my privilege to have Asst. Prof. Dr. Chanchai Sangchyoswat as my thesis advisor and I am highly indebted to him for his invaluable and professional guidance for this study. I am grateful to Assoc. Prof. Dr. Sawai Buranapanichpan, the member of my thesis advisory committee for his invaluable unique guidance, peer review, priceless comments, suggestion and support throughout the study. Further, I would like to express my sincere gratitude for providing valuable comments and suggestions, Assoc. Prof. Dr. Benchaphun Ekasingh, Assoc. Prof. Dr. Attachai Jintrawet, and Arjarn Phrek Gypmantasiri. I am also thankful to all academic and administrative staffs of Multiple Cropping Center (MCC), who have provided me a homely and friendly environment during my study period at Chiang Mai University.

For my field works, a number of institution and individuals deserved a rightful mention. I am thankful to Ex. Deputy Director of Agricultural Extension Department, Gazipur, Bangladesh, Mr. Gazi Ali Azgar Miah, all staff of Upazilla Agriculture Office, Kaligonj, Gazipur, all the farmers of Nagori Union of Kaligonj Upazilla to support me in every aspect during my field study. I would also grateful to all the staff of Surveillance and monitoring section of plant protection wing, Department of Agricultural Extension, Bangladesh.

My special thanks and gratitude to Mr. C.Q.K. Mustaq Ahmed present secretary of Ministry of Agriculture, Govt. of Bangladesh. By his profound inspiration and support I am able to achieve this degree. Thanks are also due to all seniors and juniors AGS friends and my classmates for their friendliness and cooperation.

I would like to extend my greatest appreciation to my beloved father Dr. Md. Afzal Hossain, my mother Mrs. Khaleda Hossain. I am also thankful to my wife Dr. Sharmin Sultana, my son Md. Wasiul Sami, and my daughter Aratrika Hossain Raisa. I can not possess this achievement without their far-sightedness, endless support and mental encouragement while I was in Chiang Mai.

I am indebted very much to my only one brother, Maj. Md. Khalid Hossain whom I lost by a brutal killing during this study period. Still I have been bearing that endless pain. I want to dedicate this Thesis to his departed soul.

Last but not least, I wish to give thanks everyone whose names could not be mentioned individually.

Md. Arif Hossain
