ACKNOWLEDGEMENTS

I wish to express my deep gratitude and sincere appreciation to the followings:

My supervisor, Dr. Pilairuk Intipunya, whose encouragement, guidance and support from the initial to the final level enabled me to develop an understanding of the subject.

Assoc. Prof. Dr. Renu Pinthong and Dr. Chartchai Khanongnuch, academic advisors, for their intellectual guidance, constructive criticism and heartfelt advice. My sincere thanks are to the examining committee who put their great efforts in reading, examining and giving comments to bring this thesis to proper standard.

It is a pleasure to thank those who made this thesis possible: Asst. Prof. Pichai Wongsiri and Mr. Niwat Nathee who gave me knowledge of bee to evaluate my work and gave comments and suggestions during the time of fieldwork.

I also thank Dr. Prapas Patchanee, Director of Veterinary Public Health Centre for Asia Pacific, Faculty of Veterinary Medicine, Chiang Mai University, who gave me knowledge of statistical evaluation.

I owe my deepest gratitude to Assoc. Prof. Dr. Lertrak Srikitjakarn, Dean of the Faculty of Veterinary Medicine, Chiang Mai University, who gave me a chance to use facility, equipment, microbial culture and some chemical reagents for my research.

I would like to show my gratitude to all of the scientists, graduate students of Food Science and Technology Division, Faculty of Agro-Industry, Chiang Mai University, Chiang Mai, and the scientists of the Faculty of Veterinary Medicine, Chiang Mai University, who allowed me to use the place, equipment and gave me supporting spirit all the time.

I would like to thank technical staff and laboratory supervisor at Science and Technology Service Center of Faculty of Science, Chiang Mai University, who assisted in this research about HPLC technique.

In particular, I am grateful for honey samples of different geographical origins from the north of Thailand obtained from many private beekeepers, such as Chiang Mai Healthy

Product Co., Ltd., Suphae Bee Farm Co., Ltd., Patthanakit Bee Farm Co., Ltd., Jirapha Bee Farm Co., Ltd. and Supportive and Development Agriculture Occupation Center, Chiang Mai Province (Bee), Department of Agricultural Extension, Ministry of Agriculture and Cooperatives and to financial support from the Faculty of Veterinary Medicine, Chiang Mai University.

Finally, I would especially like to thank my parents, my brothers and my sister-in-law for their love, support and encouragement that they have given me throughout my study and academic career.

Chuleeporn Saksangawong
