ACKNOWLEDGEMENTS

The author wishes to express sincere gratitude and appreciation to Assoc. Prof. Dr. Watchara Kasinrerak, thesis advisor, for his excellent guidance, very patience, continuous discussion and vast knowledge. Without his support and encouragement, this thesis could not be accomplished.

I am also extended my grateful to Asst. Prof. Dr. Chatchai Tayapiwatana, Asst. Prof. Sakchai Dettrairat, the thesis examination committee for their kindly suggestions and valuable advice.

I would like to express my sincere thanks to Miss Sangdurn Moonsom, Miss Panida Khunkeawla, Mr. Nouwarat Kunyanon, Miss Jutharut Praparuttanapun and Miss Yawaluk Punnisuthchai for their helps and suggestion.

Finally, I would like to express my great gratitude to my family for their love, understanding and encouragement throughout this study.

This work was supported by Sub-Division of Clinical Pathology, Chiang Rai Prachanukraw Hospital, Thailand and The National Center for Genetic Engineering and Biotechnology (BIOTEC) of the National Science and Technology Development Agency (NSTDA), Thailand.
