ACKNOWLEDGEMENT

The author would like to thank my advisor, Asst Prof. Dr. Thanusak Tatu for excellent guidance, valuable advice and kindest encouragement throughout this study and Asst Prof. Weerasak Nawarawong for his support and encouragement. In addition I would like to thank Emeritus Prof. Torpong Sanguansermisri for his guidance.

The acknowledgement is also put forward to Department of Clinical Microscopy, Faculty of Associated Medical Sciences, The Thalassemia Unit, Department of Pediatrics, Faculty of Medicine, Chiang Mai University.

Finally, I would like to express my thanks to my parents, my colleagues, my friends and everyone in my life for their loves, supports, sympathies and understandings throughout this study. These will remain in my memory forever.

Ruedee Pimpaporn
