ACKNOWLEDGEMENT

I am grateful to express my sincere gratitude and appreciation to my advisor, Associate Professor Rujapa Nimsung, for her excellent guidance and continuous discussion. Her support and sincerity will be remembered forever.

Also I thank my co-advisor, Lecturer Dr. Phennapha Klangsinrikul, Division of Transfusion Science, Department of Medical Technology, Faculty of Associated Medical Sciences, for her invaluable help in suggestion on ABO blood group and secretor status.

I would like to extend my special appreciation to Professor Taweessook Kunluan, Faculty of Medical Technology, Mahidol University, and Assistant Professor Dr. Audomsark Haesungcharern, Division of Clinical Chemistry Department of Medical Technology, Faculty of Associated Medical Sciences, and also to Assistant Professor Taned Chitapanarux, M.D., Department of Medicine, Faculty of Medicine, Chiang Mai University for their valuable advice, comment and approvement of my thesis articles.

My heart felts thanks go to my parents for their love, patience, understanding and encouragement throughout my study.

Many special thanks are also extended to my dear friends, and the staff of the Division of Clinical Chemistry, Faculty of Associated Medical Sciences, Chiang Mai University for their help and support in providing instruments, a convenient performing and collected specimens in this study.

Saowarak Teankaow
