ACKNOWLEDGEMENT	iii
ABSTRACT (in English)	iv
ABSTRACT (in Thai)	vi
TABLE OF CONTENTS	viii
LIST OF TABLES	xii
LIST OF FIGURES	xiv
ABBREVIATIONS	xvii
CHAPTER 1 INTRODUCTION	
1. Rationale	1
2. Purposes of the study and hypothesis	3
3. Advantages of the study	3
CHAPTER 2 LITERATURE REVIEWS	
1. Knee pain in weightlifters	4
1.1 Patellar tendinopathy	5
1.2 Patellofemoral syndrome	6
1.3 Osgood-Schlatter syndrome	7
1.4 Sinding–Larsen–Johansson syndrome	8
1.5 Fat pad syndrome	9
1.6 Iliotibial band syndrome	9
2. Risk factors of knee pain	10

2.1	Intrinsic factors	10
2.2	Extrinsic factors	11
3.	Treatments of knee pain	12
4.	Exercise for knee pain rehabilitation	13
5.	Knee educational program	17
CHAPTER 3 MATERIAL AND METHODS		
1.	Participants	19
2.	Study design	19
3.	Equipments	20
4.	Outcome measures	21
5.	Procedures	21
6.	Statistical analysis	25
7.	Reliability study of measurements	26
8.	Location	26
CHAPTER 4 RESULTS		
1.	Reliability of measurements	28
2.	Demographic characteristics of the participants	29
3.	Attendance rate	30
4.	Stability of the outcome measures before intervention	31
5.	Knowledge of knee care	32
6.	Intensity of knee pain	34
7.	Pain-free knee extension strength	34
8.	Pain-free double legs and single leg strengths	36

9. Knee functional ability	37
10. Quality of lifting	38
10.1 Intensity of knee pain during lifting	38
10.1.1 The average pain	38
10.1.2 The worst pain	40
10.2 Numbers of painful phase	42
11. Participants' satisfaction with knee educational program	43
CHAPTER 5 DISCUSSION	
1. Improvement in knowledge of knee care	45
2. Improvement in average knee pain	47
3. Improvements in pain-free strength outcome measures	51
4. Improvements in functional outcome measures	53
4.1 Knee functional ability	53
4.2 Quality of lifting	54
5. Participants' satisfaction with knee educational program	55
6. Conclusions	55
7. Limitations and suggestions	56
REFERENCES	58
APPENDICES	
APPENDIX A Participant information questionnaire	68
APPENDIX B Subjective and physical examination form	69
APPENDIX C Detail of measurements	72

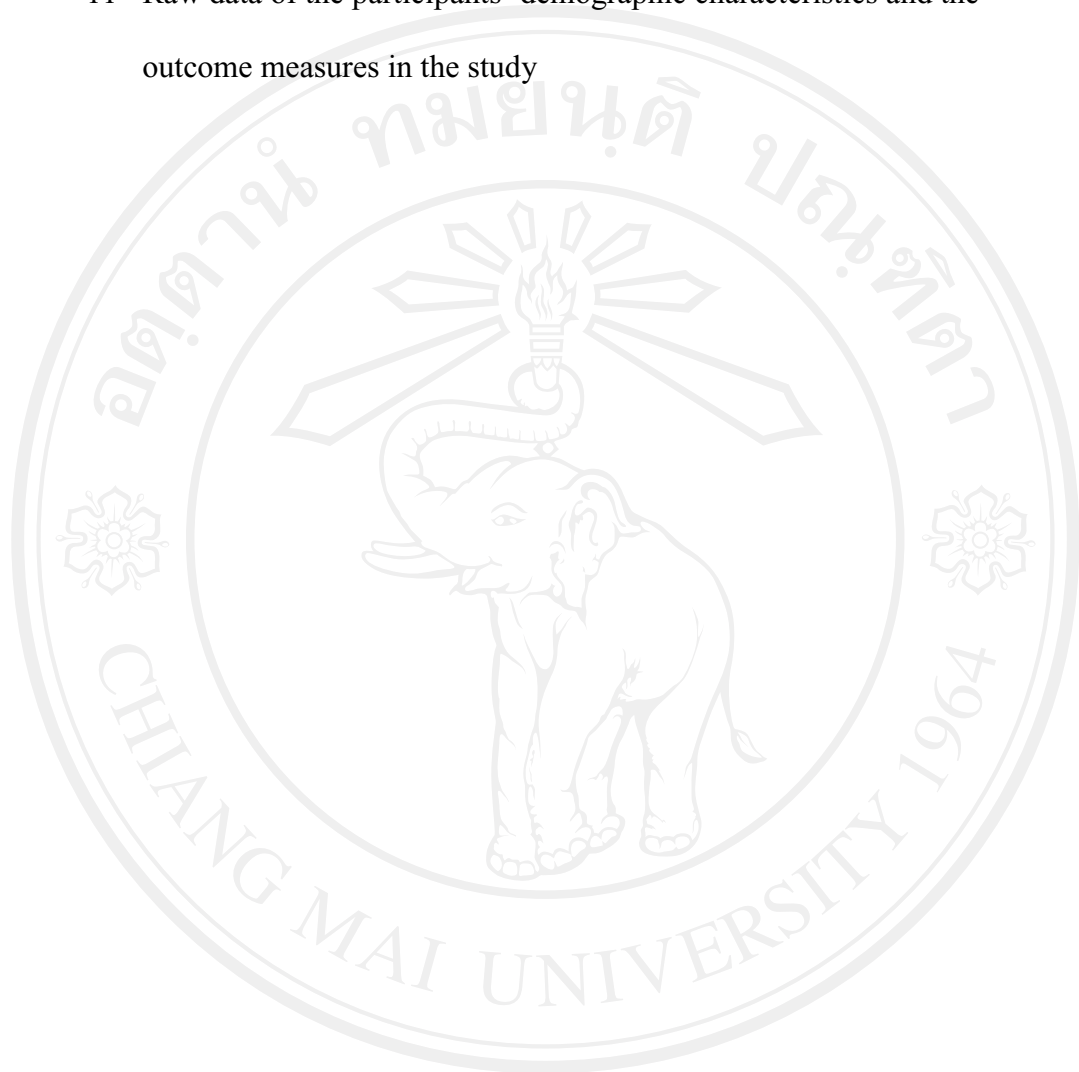

APPENDIX D Victorian Institute of Sport Assessment (VISA) scale	79
APPENDIX E Pain-free knee extension strength evaluation form	81
APPENDIX F Pain-free leg strength evaluation form	82
APPENDIX G Quality of lifting evaluation form	83
APPENDIX H Knowledge questionnaire	84
APPENDIX I Satisfaction questionnaire	88
APPENDIX J Topics of the knee educational program	89
APPENDIX K Exercise programs	91
APPENDIX L Pictures of exercise programs	93
APPENDIX M Daily log book	103
APPENDIX N Consent form	104
APPENDIX O Information sheet	105
APPENDIX P Ethical clearance	109
APPENDIX Q Letter of acceptance for publication	110
APPENDIX R Raw data of the reliability study	111
APPENDIX S Raw data of the study	112
CURRICULUM VITAE	115

LIST OF TABLES

TABLE	PAGE
1 The demographic characteristics of the participants in the reliability study	28
2 The intraclass correlation coefficients (ICC _(3,3)) and standard error of measurements (SEMs) of pain-free knee extension strength, and pain-free double legs and single leg strength tests	29
3 The demographic characteristics of the participants (N=11)	30
4 Percentage of attendance during 8-week period of knee educational program	30
5 Mean values of the outcome measures before intervention (Mean ± SD)	31
6 The knowledge score and average knee pain VAS score at baseline (week 0), week 8 th , and week 12 th (Mean ± SD)	33
7 The pain-free knee extension strength, and double legs and single leg strengths at different assessment periods (Mean ± SD)	35
8 The knee functional ability VISA scores and quality of lifting at different assessment intervals (Mean ± SD)	39
9 The levels of satisfaction with knee educational program	44
10 Raw data of the participants' demographic characteristics in the reliability study and the pain-free knee extension strength, and double legs and single leg strengths for analysis of reliability	111

11 Raw data of the participants' demographic characteristics and the
outcome measures in the study

LIST OF FIGURES

FIGURE		PAGE
1	The intervention program and the measurements during the study	25
2	Procedure diagram	27
3	Data of Mean \pm SD in knowledge of knee care at baseline (week 0), week 8 th , and week 12 th	33
4	Data of Mean \pm SEM in average knee pain (VAS scores) at baseline (week 0), week 8 th , and week 12 th	34
5	Data of Mean \pm SEM in pain-free knee extension strength at baseline (week 0), week 8 th , and week 12 th	35
6	Data of Mean \pm SEM in pain-free double legs strength at baseline (week 0), week 8 th , and week 12 th	36
7	Data of Mean \pm SEM in pain-free single leg strength at baseline (week 0), week 8 th , and week 12 th	37
8	Data of Mean \pm SEM in VISA scores at baseline (week 0), week 8 th , and week 12 th	38
9	Data of Mean \pm SEM in average pain (VAS score) during snatch, clean, and jerk at different assessment intervals	40
10	Data of Mean \pm SEM in the worst pain (VAS score) during snatch, clean, and jerk at different assessment intervals	41

11	Data of Mean \pm SEM in the number of painful phase in snatch, clean, and jerk at different assessment intervals	42
12	Hand-held dynamometer	73
13	Pain-free knee extension strength testing equipment (i.e., hand-held dynamometer and N-K table)	74
14	Pain-free knee extension strength test	74
15	Pain-free double legs strength test	76
16	Pain-free single leg strength test	76
17	Piriformis stretch	93
18	Quadriceps stretch	93
19	Hamstrings stretch	94
20	Hip flexors stretch	94
21	Calf stretch	95
22	Single leg squat on flat floor	95
23	Single leg squat on 25° decline board	96
24	Single leg squat on 25° decline board with barbell	96
25	Step down off 4-inch step	97
26	Step down off 8-inch step	97
27	Step down off 8-inch step with barbell	98
28	Forward lunge onto 4-inch step	98
29	Forward lunge on flat floor	99
30	Forward lunge on flat floor with barbell	99

31	Squat jump	100
32	Double-leg hop	100
33	Jump to box	101
34	Skipping	101
35	Single leg hop	102
36	Unilateral stance on trampoline while throwing and catching the ball	102

ABBREVIATIONS

cm	Centimeter
FPS	Fat pad syndrome
ICCs	Intraclass correlation coefficients
ITB	Iliotibial band
JRF	Joint reaction force
kg	Kilogram
mm	Millimeter
OA	Osteoarthritis
OS	Osgood-Schlatter syndrome
PFS	Patellofemoral syndrome
SD	Standard deviation
SEM	Standard error of mean
SEMs	Standard error of measurements
SLJS	Sinding–Larsen–Johansson syndrome
SSC	Stretch-shortening cycle
VAS	Visual analogue scale
VISA	Victorian Institute of Sport Assessment
VMO	Vastus medialis oblique
