ACKNOWLEDGMENTS

I would like to express my sincere gratitude and appreciation to my major advisor, Assoc. Prof. Dr. Samlee Mankhetkorn, for his invaluable advice, kindness, support, understanding, supervision and encouragement throughout my study. I am very grateful to Prof. Dr. Hideyuki J Majima, for his proper guidance, advice, support, and endless patience throughout my work in Department of Oncology and Department of Space Environmental Medicine, Kagoshima University Graduate School of Medical and Dental Sciences, Kagoshima, Japan

I am also very grateful to Dr. Manuel Garrigos, Professor. Dr. Guy Haegeman, Assist. Prof. Dr. Suchart Kothan, Dr. Nathupakorn Dechsupa for their help, valuable suggestions, comments and corrections of this thesis.

I wish to thank Dr. Hiroko P Indo, Dr. Kazuo Tomita, Dr. Yoshiro Iwashita, Mr. Hiromu Fujihashi, Mr. Kenshiro Sadamura and the members of laboratory of Physical Chemistry, Molecular and Cellular Biology, Center Excellence for Molecular Imaging for their kindness, encouragement, and generous help that made my work possible.

I would like to thank Higher Education Commission and Department of Radiologic Technology, Faculty of Associated Medical Sciences, Chiang Mai University for support during my study.

Finally, I would like to express my deepest gratitude to my dear parents, members in my family and my friend for their love, helpful, encouragement, and understanding during the period of my study.

Sompong Sriburee
