ENGLISH ABSTRACT	iv
THAI ABSTRACT	vi
LIST OF TABLES	xi
ABBREVIATIONS	xii
CHAPTER 1 INTRODUCTION	1
1.1 Aims of the study	4
1.2 Hypotheses of the study	4
CHAPTER 2 LITERATURE REVIEW	5
2.1 Neck pain in elderly population	5
2.2 Pain mechanisms and measurements	6
2.3 Alterations in the sensory system in older persons	10
2.3.1 Changes in primary afferent nociceptive fibers with ageing	11
2.3.2 Changes in the central nervous system with ageing	11
2.3.3 Age-related changes in pressure pain thresholds	12
2.3.4 Age-related changes in thermal pain thresholds	13
2.3.5 Age-related changes in supra-threshold pain ratings	14
2.3.6 Altered pain thresholds in older persons with pain	15
2.3.7 Psychological factors in older persons with pain	16

2.4 Alterations in the sensory system of patients with neck pain	17
2.4.1 Pressure pain thresholds	17
2.4.2 Heat pain thresholds	19
2.4.3 Cold pain thresholds	20
2.4.4 Influences of psychological factors on pain thresholds in neck pain patients	20
CHAPTER 3 METHODS	23
3.1 Sample size calculation	23
3.2 Participants	23
3.2.1 Inclusion criteria	24
3.2.2 Exclusion criteria	24
3.3 Equipments	25
3.4 Measurements	25
3.4.1 Questionnaires	25
3.4.2 Quantitative sensory testing	27
3.5 Procedures	29
3.6 Independent and dependent variables	30
3.6.1 Independent variables	30
3.6.2 Dependent variables	30
3.7 Statistical analysis	30
3.8 Data collection location	31
CHAPTER 4 RESULTS	32
4.1 Demographics of participants	32
4.2 Psychological features	33

4.3 QST measurements	33
4.3.1 Pressure pain thresholds	34
4.3.2 Thermal pain thresholds	34
4.3.3 Supra-threshold heat pain ratings	35
CHAPTER 5 DISCUSSION	38
5.1 Overview of study results	38
5.2 Quantitative sensory testing	39
5.2.1 Pain thresholds	39
5.2.2 Supra-threshold heat pain ratings	43
5.2.3 Influence of psychological on pain thresholds	44
5.3 Psychological features	44
5.4 Clinical implications and limitations	45
5.5 Future directions in research	46
5.6 Conclusion	47
REFERENCES	48
APPENDICES	60
CURRICULUM VITAE	85

LIST OF TABLES

Table	Page
1 Characteristics and physiologic properties of primary nociceptive afferent fibers	7
2 Demographic data of participants	32
3 Psychological features between elders with and without neck pain	33
4 QST measurements between the left and right sides of all sites	36
5 QST measurements between elders with and without neck pain for all sites	37

ABBREVIATIONS

CPTs	Cold pain thresholds
HPTs	Heat pain thresholds
NDI-TH	Neck Disability Index- Thai version
PPTs	Pressure pain thresholds
QST	Quantitative sensory testing
STAI	State Trait Anxiety Inventory
TGDS	Thai Geriatric Depression Scale
VAS	Visual analog scale
