Acknowledgements	iii
Abstract(Thai)	iv
Abstract(English)	vii
List of Tables	xiii
List of Figures	xv
Chapter 1 Introduction	
1.1 Background	1
1.2 Importance, Relevance, and Usefulness	2
1.3 Research Objectives	6
1.4 Research Questions	7
1.5 Scope of the Study	8
1.6 Definitions	9
Chapter 2 Literature Review	
2.1 Input-output Based Multiplier Analysis	12
2.1.1 The Structure of the Input and Output Table for China	12
2.1.2 IO Multiplier Analysis	14
2.2 SAM-Based Multiplier Analysis	15
2.2.1 SAM Structure	15
2.2.2 SAM-based Multiplier Analysis	21
2.2.3 Applications of SAM and SAM Multiplier Analysis	23
2.3 The Linear Programming	28

2.3.1	The simplex method	28
2.3.2	Generalized duality	31
Chapter 3 Yunnan Macro SAM 2002		
3.1	The Structure of the Macro SAM for Yunnan, 2002	36
3.2	Accounts Explanation and Cell Entries for the Macro SAM	39
3.2.1	Accounts Explanation	39
3.2.2	Cells Entries	48
3.3	Building and Balancing the Macro SAM	50
3.3.1	An Unbalance Macro SAM	50
3.3.2	The Process of the Macro SAM Balancing	52
3.3.3	Yunnan Macro SAM 2002	53
Chapter 4 Yunnan Micro SAM 2002		
4.1	The Accounts Setting of the Micro SAM for Yunnan, 2002	55
4.2	The Framework and Explanations	59
4.3	Transforming IO Table	65
4.3.1	Framework of the Official IO table	66
4.3.2	Aggregating 42 Sectors IO Table in to 29 Sectors IO Table	67
4.3.3	Disaggregating 29 Sectors IO Table into 36 Sectors IO Table	71
4.3.4	Expanding 36 Sectors IO to 41 Sectors IO	74
4.4	Building the Micro SAM	78
4.4.1	A Basic and Unbalanced Micro SAM (SAM1)	78
4.4.2	A Basic and Balanced Micro SAM (SAM2)	85
4.4.3	The Micro SAM with 3 Types of VA-L (SAM3)	86
4.4.4	Disaggregating the Urban Household (SAM4)	87
4.4.5	Disaggregating the Rural household (SAM5)	91

Chapter 5 Multiplier Analysis and Linear Programming Optimization	
5.1 Accounting Multiplier Matrix	95
5.2 Multiplier Effect Analysis	98
5.2.1 The Accounting Multipliers Analysis on 6 Economic and Social Targets	98
5.2.2 The Integrated Sustainable Development Multiplier Analysis	111
5.3 Linear Program Optimization	116
5.3.1 Linear Programming Optimization Matrix	116
5.3.2 Scenario Analysis with Different Constraint by Industries	119
Chapter 6 Conclusions and Recommendations	
6.1 Summary of Economic Problem	133
6.2 Summary of the Research	134
6.3 Conclusions	136
6.4 The Weakness of the Study	139
6.5 Recommendations for Using the Results of the Study	140
6.6 Further Studies, Applications or Extension of the Research	141
References	142
Appendix	
Appendix A The A Matrix for the Micro SAM	150
Curriculum Vitae	167

List of Tables

Table	Page
2.1 An open-economy input and output table of China	13
2.2 A macroeconomic SAM	20
3.1 Accounts of the Macro SAM for Yunnan, 2002	37
3.2 Descriptive Macro SAM for Yunnan, 2002	38
3.3 Descriptive Macro SAM in Abbreviation for Yunnan, 2002	39
3.4 Value determination of Macro SAM	49
3.5 Yunnan Macro SAM 2002 (unbalanced)	51
3.6 The method to balancing Macro SAM in table 3.5	52
3.7 Yunnan Macro SAM 2002 (balanced)	53
3.8 The method to balancing Macro SAM in 2st step	53
3.9 A 2002 Macro SAM for Yunnan	54
4.1 CA accounts setting of the Micro SAM	56
4.2 The categories of household of the Micro SAM	58
4.3 The dimension of the Micro SAM	59
4.4 The framework of IO table	66
4.5 The sectors structure in the 42 sectors IO table	68
4.6 Aggregating from 42 sector to 29 sector	70
4.7 Expending agriculture into 5 sectors	72
4.8 36 sectors obtaining from 122 sectors	73

4.9 Disaggregated sectors setting and total output and share	75
4.10 Aggregated farming matrix in 41 sectors IO matrix	76
4.11 Adjusted farming matrix in the 41 sectors IO table	77
4.12 Account setting in the first unbalanced Micro SAM	79
4.13 The data source of the unbalanced Micro SAM	80
5.1 The SAM model summarized by endogenous and exogenous	96
5.2 Multiplier effect ranking by value added	100
5.3 Multiplier ranking by employment creation	102
5.4 Multiplier ranking by environmental degradation	104
5.5 Multiplier ranking by energy dependency	106
5.6 Multiplier ranking by transportation dependency	108
5.7 Multiplier ranking by poverty alleviation	110
5.8 The integrated multiplier ranking by the inverse method	113
5.9 The integrated multiplier ranking by the negative method	115
5.10 Top 17 sectors for multi-objectives of the sustainable development	116
5.11 Linear programming optimization matrix	118
5.12 Level and decomposition of GDP in value added terms	120
5.13 Impact of development strategies on agricultural sector activities	122
5.14 Impact of development strategies on energy sector activities	124
5.15 Impact of development strategies industrial sector activities	125
5.16 Impact of development strategies on service sector activities	127
5.17 Impact of development scenarios on the distribution of income	130

List of Figures

Figure	Page
2.1 The flow of resources in a multi-sector economy	17
2.2 The simplex tableau	28
2.3 Pivot tableau	30
