ABSTRACT

This study investigated educational management of Mahachulalongkornrajavidyalaya University Chiang Mai Campus. Population under study comprised 31 administrators and instructors from aforementioned university in the 2006 academic year. Instrument used was a questionnaire with items asking about essentials of the topic. Collected data were then analyzed through applications of frequency and percentage.

The findings were summarized as follows :

As regards educational management of the above university, the tasks performed were : selecting personnel with qualities suitable to the positions ; developing plan for budget expenditure ; preparing supplies and materials for educational management and proceeded by method of supplies control; making plan for buildings and environs usage ; and having clean restrooms. For some tasks not fully performed, they were : encouraging competition for personnel to search for new thoughts applicable to work utilization; gathering financial support from related organizations ; proceeding to expedite not up to date supplies and materials; and providing ample area for students' rest and leisure.
