ACKNOWLEDGEMENTS

The author would like to express his most profound and sincere gratitude to his supervisor, Dr. Methi Ekasingh, for his valuable guidance, encouragement, suggestions, through out the course of this research and his study program.

The author thanks his committee members, Dr. Methi Ekasingh, Assist. Prof. Dr. Benchaphun Shinawatra, Mr. Taweesak Vearasilp, and Dr. Attachai Jintrawet, for their valuable suggestions and which had made his thesis more readable and sensible.

The author also gratefully extend his thanks to Mr. Chanchai Sangchyoswat and the Computer Center of Chiang Mai University, for facilitating the data processing and printing of the output maps respectively. Thanks are also extended to his class mates: Ashadi, Cheng, De, Nong Ngaew, Panya, Pee Tim, and Tony, for their friendship and moral supports.

This research can not be conducted without financial support from The Ford Foundation.

Finally his special thank goes to his mother and his wife, Yuwadee, for their kindness, understandings, and patience during his course of study and research.
