Abstract	ii
Thai abstract	v
Table of contents	vii
List of tables	xi
List of figures	xiii
List of appendix tables	xiv
CHAPTER I INTRODUCTION	1
1.1 The problem statement	1
1.2 Rationale	3
1.3 Objectives of the study	5
1.4 Usefulness of the study	6
1.5 Literature review	6
CHAPTER II RESEARCH METHOD	13
2.1 Scope of the study	13
2.2 Selection of the study area	13
2.3 Conceptual framework	13
2.4 Data collection	14
2.4.1 Collection of secondary information	14
2.4.2 Participatory rural appraisal	14
2.4.3 Formal survey	15
2.5 Data analysis	16
CHAPTER III DESCRIPTION OF THE SURVEY AREA AND COMMUNITIES	19
3.1 Physical conditions	18
3.1.1 Geography location	18
3.1.2 Terrain, hydrology and climate	18
3.1.3 Land resource and use	21

3.2 Economic, demographic, and social characteristics of the community	22
3.2.1 Social and demographic characteristics	22
3.2.2 Economic activities	22
3.2.3 Infrastructure	25
3.2.4 Social structure and local organization	26
3.2.5 Cultural aspects	26
3.2.6 Land tenure procedure relating to gender issue	27
3.2.7 Products marketing	29
3.3 Household characteristics	29
3.3.1 Age, educational level and size of household	29
3.3.2 Land holding	30
3.3.3 Livestock holding	31
3.3.4 Living expenditure and standard	32
3.3.5 Income sources and net income per person	33
CHAPTER IV FORMS AND FUNCTION OF AGROFORESTRY SYSTEMS IN THE STUDY AREA	35
4.1 Agroforestry systems of the survey area	35
4.1.1 Cropping systems	35
4.1.2 Animal production system	41
4.1.3 Forestry tree production system	41
4.1.4 Off-farm activities	42
4.2 Function and interrelationships of different components of agroforestry systems in the surveyed area	44
CHAPTER V GENDER ROLES IN AGROFORESTRY SYSTEMS	48
5.1 Gender participation in agroforestry activities	48
5.1.1 Crop production	48
5.1.2 Forestry production	50
5.1.3 Animal production	52
5.1.4 Off-farm activities	53

5.2 Labor use pattern on agroforestry activities by gender	55
5.2.1 Labor use pattern for crop production by gender	55
5.2.1.1 For food crops	55
5.2.1.2 Fruit trees	60
5.2.1.3 For industrial crops	62
5.2.2 Labor use pattern on planted forest production activities by gender	67
5.2.3 Labor use pattern on animal production activities by gender	70
5.2.4 Labor use pattern on off-farm activities by gender	72
5.3 Comparing the involvement in different economic status	76
5.4 Gender division in housework by women and men in Binh Dien	86
5.5 Work routine by women and men	87
5.6 Income and personal expenditure	91
5.7 Income contribution	93
CHAPTER VI DECISION MAKING, INDEGENOUS KNOWLEDGE	96
 AND ACCESS TO RESOURCES IN BINH DIEN	
6.1 Decision making in agroforestry tasks	96
6.1.1 Decision making in crop production activities	97
6.1.2 Decision making in animal production	100
6.1.3 Decision making in tree production	102
6.1.4 Decision making on household activities by gender	104
6.2 Indigenous knowledge	107
6.2.1 Indigenous knowledge of soil conservation	107
6.2.2 Indigenous knowledge in water resource conservation	109
6.2.3 Indigenous knowledge of treating diseases of crops and animals and animal breeding	110
6.2.4 Indigenous knowledge on product storage	111
6.2.5 Indigenous knowledge on wild plants for food and fodder	111
6.2.6 Indigenous knowledge on wild plants for medicine	113
6.3 Access to land, information, credit and training by gender	115

6.4 Women's constraints to improve productivity and welfare	118
CHAPTER VII CONCLUSION AND RECOMMENDATIONS	122
7.1 Conclusion	122
7.2 Discussion	125
7.3 Recommendation	127

LIST OF TABLES

Table	Page
3.1 Frequency of off-farm activities of household groups	24
3.2 Age, educational level, size of household by economic status	30
3.3 Land holding per capita among household groups	31
3.4 Livestock holding by household groups	32
3.5 The average annual expenditure per person of household groups	33
3.6 Net income per person in household groups by income sources	34
5.1 Labor use pattern for food crop production activities by gender and household groups	56
5.2 Labor use pattern for fruit tree production activities by gender and household groups	61
5.3 Labor use pattern for industrial crop production activities by gender and household groups	64
5.4 Labor use pattern for planted forest production by gender and household groups	68
5.5 Labor use pattern for animal production activities by gender and household groups	71
5.6 Labor use pattern for off-farm activities by economic groups	73
5.7 Total labor days for food crop production by women of different income groups	77
5.8 Total labor days for industrial crop production by women of different income groups	80
5.9 Total labor days for fruit tree production by women of different income groups	80
5.10 Total labor hours for animal production by women of different income groups	81
5.11 Total labor days for forestry production by women of different income groups	83
5.12 Total labor days for off-farm activities	84

	by women of different income groups	
5.13	The average hours spent in housework activities by gender and economic status	87
5.14	Monthly production activities in Binh Dien commune by gender	88
5.15	Daily work routine by gender for rainy season	89
5.16	Daily work routine by gender for dry season	90
5.17	Personal expenditure by gender	93
5.18	Income distribution by gender and economic status	94
6.1	Decision making on crop production by gender and economic groups	98
6.2	Decision making about animal production by gender and economic groups	101
6.3	Decision making on tree production by gender and economic groups	103
6.4	Decision making about household activities by gender and economic groups	105
6.5	Indigenous knowledge of soil conservation practices by gender	108
6.6	Indigenous knowledge of water resource conservation by gender in Binh Dien commune	110
6.7	Indigenous knowledge of treating normal diseases of animals and breeding by gender	111
6.8	Wild plant species gathered and used for food and fodder by gender	112
6.9	Plant species gathered and used for medicinal purpose by gender	114
6.10	Access to land, information, credit and training by gender	116

LIST OF FIGURES

Figure	Page
3.1 Location of the North Coastal Central region of Vietnam	19
3.2 Location of Binh Dien commune of Thua Thien Hue province	20
4.1 The transect of Binh Dien commune	36
4.2 Agroforestry systems of the survey area	37
4.3 Production seasonal calendar of Binh Dien commune	38
4.4 Main cropping pattern in the survey area	39
5.1 Gender participation in crop production activities	49
5.2 Gender participation in forestry production activities	51
5.3 Gender participation in animal production	52
5.4 Gender participation in off-farm activities	54
6.1 Selected decision making on crop production by gender and economic status	99
6.2 Selected decision making about animal production by gender and economic status	102
6.3 Selected decision making on tree production by gender and economic status	104
6.4 Selected decision making about household activities by gender and economic status	106

LIST OF APPENDIX TABLES

	Page
Table Appendix 1 Gender participation in crop production	135
Table Appendix 2 Gender participation in planted forest production	135
Table Appendix 3 Gender participation in animal production	136
Table Appendix 4 Gender participation in off-farm activities	136
