## ACKNOWLEDGEMENT

I am extremely grateful to my supervisor (Asst. Prof. Dr. Pattana Jierwiriyanant) for her advice and recommendation during thesis writing. I would like to gratify to examining committee members (Dr. Songsak Sriboonchitta, Lect. Phrek Gypmantasiri, and Assoc. Prof. Dr. Aree Wiboonpongse) for their comments and suggestions. I am also very pleased to thank the lecturers and administrative staff of Agricultural Systems Program, Faculty of Agriculture, Chiang Mai University for their instructions and suggestions.

Further, I would like to thank the government officers in Department of Agricultural Extension, Department of Customs, Department of Business Economics, Department of Foreign Trade, and Department of Export Promotion. They kindly give and service me for Thai orchid export data and information. I am very grateful to the Senior Information Officer of European Business Information Centre (EBIC, Thailand), Pekka Penttila, and the officers of American Business Information Centre, Bangkok, Thailand who supply the benefit import data of orchid flowers of Italy and the United States of America, respectively. Especially, the great thank to Thai orchid export companies and orchid growers for presenting about Thai orchid export information, and special thanks to Prof. Rapee Sagarik for his guidance and knowledge in Thai orchids.

Finally, I appreciate to Rajamangala Institute of Technology, and Faculty of Agriculture, Chiang Mai University that gives me a chance and scholarship to study. I am grateful and appreciate to my parents and sisters for their kindness, sacrifices, and encouragement during my study, which motivate me to complete the study in Chiang Mai University.

Pattana Youpensuk.
