ACKNOWLEDGEMENTS

I would like to express my profound thanks to all people who involved with my study by providing their invaluable guidance, help, and sharing their knowledge and experience.

My utmost sincere appreciation and profound gratitude are extended to Asst. Prof. Dr Attachai Jintrawet, my academic and thesis advisor, for his invaluable guidance, constructive suggestions through out my study. This study could not finish without his supervision and invigoration.

I would like to express my thanks with the same gratitude to all other committee members, Ajarn Phrek Gymantasiri, Dr. Preecha Prammanee and Asst. Prof. Dr. Soonthorn Buranaviriyakul, for their guide, suggestion and constructive comments during my study.

My profound thank also going to be expressed with respect to Managing Director, General Manager, of Myanmar Sugarcane Enterprise for their encouragement to my study. I am also wish to thank to Saya U Soe Myint, Saya U San Thein, Saya U Bo Yee and Saya U Pyay Aye who made invaluable guidance and encouragement not only at work but also for this study.

It is the great pleasure with my heart to thank to all lectures from Multiple Cropping Center, Faculty of Agriculture, Chiang Mai University for their upgrading on my learning and knowledge. I also thank to all staffs of the Agricultural System Program for their administrative helps and nice hospitality. I am sincerely pleased to thank to Dr. Bonnie Ball-Coelho for providing research papers through mail.

It was very graceful time during my study by sharing knowledge and experience with all students who learning together, so I am greatly pleased to thank for their individual contribution. My special thank goes to Miss Pantip Nonsee who spent her valuable time by helping in laboratory works and simulation part, and also

to Miss Sarintip Promrit, for sharing her research experience. It is my sincere thank to laboratory technicians from Multiple Cropping Center, for their instructions and help. I am also pleased to thank Suphanburi Field Crop Research Center for providing U-Thong 5 cane setts.

I also wish to thank to all officers and staffs from regional MSE offices for their help and providing facilities during my field survey. Thanks also go to all farmers for their enthusiastic participation in my field survey.

My graduate study could not be possible without financial support form Department of Technical and Economic Cooperation of Thailand Government. My profound thanks are extended to the government and citizens of Thailand.

Finally, my greatest appreciation goes to my father, U Khin Maung Tint, who always gives his loves, inspiration, supports and my brothers and sisters as well. I deeply wish to honour with this study to my mother (Daw Khin Thaung Yee) who gave her upmost love before passed away.

Aung Moe Myo Tint
