

Table of Contents

	Page
Acknowledgements.....	iii
Abstract in English.....	v
Abstract in Thai.....	vii
List of Tables.....	xiii
List of Figures.....	xvi
List of Appendices.....	xvi
Abbreviations.....	xvii
Equivalents.....	xvii
Chapter 1 INTRODUCTION.....	1
1.1 Justification of the study.....	1
1.2 Statement of problem and usefulness of the study.....	2
1.3 Objectives of the study.....	4
1.4 Scope of the study.....	4
Chapter 2 VIETNAM SHRIMP IN THE WORLD SHRIMP PRODUCTION AND MARKETING CONTEXT.....	6
2.1 Shrimp production.....	6
2.1.1 Shrimp aquaculture.....	9
2.1.2 Aquacultural shrimp species.....	11
2.2 Shrimp trade.....	14
2.2.1 World shrimp export.....	14
2.2.2 World shrimp import.....	19
2.2.2.1 Vietnamese shrimp in Japan.....	21
2.2.2.2 Vietnamese shrimp in USA.....	22
2.3 Summary.....	23
Chapter 3 LITERATURE REVIEW AND THE RESEARCH SITE.....	24

3.1 Characteristics of shrimp	24
3.2 The life cycle of Black Tiger shrimp	25
3.3 Basic and essential requirements of shrimp.....	27
3.4 Shrimp aquacultural systems	30
3.4.1 Shrimp aquacultural systems in the world	30
3.4.2 Shrimp aquacultural systems in Vietnam	32
3.5 System performance and performance criteria.....	33
3.6 Technical efficiency and measurement.....	35
3.7 Studies related to shrimp aquaculture, production frontiers and technical efficiencies.....	38
3.7.1 Studies related to shrimp aquaculture	39
3.7.2 Studies related to production frontiers and technical efficiencies	39
3.8 Research site description.....	42
3.8.1 Location of the research site	42
3.8.2 Climate	44
3.8.3 The lagoon and its features	45
3.8.4 Population and labor force	47
Chapter 4 METHODOLOGY	48
4.1 Data of the study	48
4.2 Economic performance criteria.....	49
4.2.1 Profitability performance	49
4.2.2 Productivity performance criteria	52
4.2.3 Technical efficiency	53
4.2.4 Allocative efficiency	53
4.3 Logical framework of the study.....	54
4.4 Stochastic frontiers.....	55
4.4.1 Theoretical models of production frontiers.....	57
4.4.2 Production frontier estimation with technical inefficiency equation.....	59
4.5 Allocative efficiency	60
Chapter 5 SHRIMP AQUACULTURAL SYSTEMS AND RELATED ISSUES.....	63
5.1 Existing shrimp aquacultural systems in Phu Vang	63

5.2 Activities of shrimp farms	65
5.2.1 Cropping calendar	65
5.2.2 Shrimp pond preparation.....	66
5.2.3 Preventing diseases, feeding and harvesting.....	69
5.2.4 Shrimp marketing.....	70
5.3 Current problems in shrimp aquaculture.....	73
5.3.1 Environmental and social problems.....	74
5.3.1.1 Conflicts between agriculture and aquaculture.....	75
5.3.1.2 Conflicts between aquaculture and fishery	75
5.3.1.3 Conflicts between aquaculture and aquaculture	76
5.3.2 Shrimp diseases.....	77
Chapter 6 PROFITABILITY AND PRODUCTIVITY PERFORMANCES OF THE TWO SHRIMP AQUACULTURAL SYSTEMS.....	80
6.1 Inputs of shrimp aquaculture	80
6.1.1 Human resources and management skill	80
6.1.2 Production input utilization.....	82
6.1.3 Production costs of the SSAS and ISAS.....	84
6.2 Profitability and productivity performance of SSAS and ISAS	88
Chapter 7 ANALYSES OF PRODUCTION FRONTIERS, TECHNICAL AND ALLOCATIVE EFFICIENCIES OF SHRIMP AQUACULTURE.....	91
7.1 The empirical models of production frontiers and technical inefficiencies.....	91
7.2 Definitions of the variables in production frontier and TI models	92
7.2.1 Definitions of the variables in production frontier models.....	92
7.2.2 Definitions of the variables in TI models	96
7.3 Descriptive statistics of the all variables.....	97
7.4 The estimated production frontier and TI models.....	100
7.5 Resource allocation and utilization analysis.....	106
Chapter 8 CONCLUSION AND RECOMMENDATION	112
8.1 Conclusions.....	112
8.2 Recommendations.....	115

8.3 Further research recommended.....	116
References.....	117
Appendices.....	124
Curriculum vitae.....	133

List of Tables

Table	Page
1.1 Area of the shrimp farming systems in Phu Vang	3
2.1 Production quantity of shrimp from capture and aquaculture	7
2.2 Production quantity of shrimp by major producing countries 1984-1998	8
2.3 Shares of total production of major producing countries 1984-1998	9
2.4 Shrimp aquaculture in the world.....	11
2.5 Shares of shrimp production from aquaculture of major producing countries	11
2.6 Shrimp aquaculture and Black Tiger shrimp of the world.....	13
2.7 Production quantity of Black Tiger shrimp of major producing countries.....	13
2.8 Shares of Black Tiger shrimp production of major producing countries.....	14
2.9 Export quantity of frozen shrimp of the world	15
2.10 Export quantity of frozen shrimp of major exporting countries	16
2.11 Shares of frozen shrimp export of major exporting countries	17
2.12 Export market share of Vietnam seafood products.....	18
2.13 Seafood exports to the four main export market of Vietnam.....	18
2.14 Exported seafood commodities of Vietnam in 2000.....	18
2.15 Shrimp exported to some main markets in 1999-2000	19
2.16 Import quantity of frozen shrimp of major importing countries.....	20
2.17 Shares of frozen shrimp import of major importing countries	21
2.18 Shrimp imported to Japan	22
2.19 Vietnam export to USA market 1994-2000	23
3.1 Recommended water parameters for successful culture of <i>P. monodon</i>	29
3.2 Shrimp aquacultural systems in Asia.....	31
3.3 Characteristics of the shrimp aquacultural systems in the Philippines.....	31
3.4 Characteristics of the shrimp aquacultural systems in Thailand.....	31
3.5 Population and labor force of Phu Vang in 2001.....	47
6.1 Characteristics of human resource and management skill of farms	81
6.2 Production inputs of the two shrimp aquacultural systems in Phu Vang	83

6.3 Costs per sao within the two shrimp aquacultural systems.....	85
6.4 Cost structure per sao of the two shrimp aquacultural systems.....	86
6.5 Profitability and productivity performance per sao of the two systems	89
7.1 Descriptive statistics for yield and variables affecting the yield of the SSAS.....	97
7.2 Descriptive statistics for yield and variables affecting the yield of the ISAS	98
7.3 Descriptive statistics for TI and variables affecting TI of the SSAS.....	98
7.4 Descriptive statistics for TI and variables affecting TI of the ISAS.....	98
7.5 Correlation matrix for variables in production frontier model of the SSAS.....	99
7.6 Correlation matrix for variables in production frontier model of the ISAS	99
7.7 Correlation matrix for variables in TI model of the SSAS	100
7.8 Correlation matrix for variables in TI model of the ISAS.....	100
7.9 The production frontier and TI of the SSAS.....	101
7.10 The production frontier and TI of the ISAS.....	102
7.11 Technical efficiency of shrimp farms in the two systems.....	105
7.12 Descriptive statistics for input prices and output price for the SSAS.....	108
7.13 Descriptive statistics for input prices and output price for the ISAS.....	108
7.14 Descriptive statistics of r_{X_i} 's of the SSAS	110
7.15 Descriptive statistics of r_{X_i} 's of the ISAS.....	110

List of Figures

Figure	Page
3.1 Life cycle of shrimp	26
3.2 The research site	43
4.1 Logical framework of the study	54
4.2 Stochastic production frontier	56
4.3 Allocative efficiency and profit maximization	61
5.1 Cropping calendar of shrimp aquaculture in Phu Vang	65
5.2 Marketing channels for shrimp in Phu Vang	71
7.1 Technical efficiency of the two shrimp farming systems	106

List of Appendices

Appendix	Page
6.1 t-test for equality of means of the human resource's indicators	124
6.2 t-test for equality of means of other inputs of the two shrimp systems	125
6.3 Testing for the significant difference between the cost means of the two shrimp aquacultural systems	126
6.4 t-test for equality of means of criteria of profitability and productivity performance of the two shrimp systems	127
7.1 TE estimates of the SSAS	128
7.2 TE estimates of the ISAS	129
7.3 MPs of the variable inputs of the two shrimp aquacultural systems.....	130
7.4 Descriptive statistics for MVPs of the SSAS	131
7.5 Descriptive statistics for MVPs of the ISAS.....	131
7.6 Testing for the statistical significance of the r ratios of the resources in the two shrimp aquacultural systems.....	132

Abbreviations

AE	allocative efficiency
FCR	feed conversion ratio
IESAS	improved extensive shrimp aquacultural system
ISAS	intensive shrimp aquacultural system
MLE	maximum likelihood estimation
MP	marginal product
MVP	marginal value product
PL	post larva
ppm	parts per million
ppt	parts per thousand
SSAS	semi-intensive shrimp aquacultural system
TE	technical efficiency
TESAS	traditional extensive shrimp aquacultural system
TI	technical inefficiency
VND	Vietnamese dong currency

Equivalentents

1 sao	500 m ²
1 USD	15,300 VND (year 2002)
