 CHAPTER I INTRODUCTION	 1
1.1. Introduction	1
1.2. Rationale	2
1.3. Conceptual framework	3
1.4. Scope of the study	5
1.5. Objectives	5
1.6. Usefulness of this study	5
1.7. Definition	6
 CHAPTER II LITERATURE REVIEW	 7
2.1. Indigenous knowledge	7
2.2. Important of wild plants	10
2.3. Women and Utilization of wild plants	11
2.4. Indigenous knowledge in the use of wild plants by women	13
2.5. Economic valuation and the use value of wild plants	15
 CHAPTER III METHOD OF THE STUDY	 18
3.1. Method of the study	18
3.1.1. Selection of the study area	18
3.1.2. Data collection	18
Primary data collection	18
Secondary data collection	20

	Page
3.1.3. Data analysis	20
CHAPTER IV GENERAL CHARACTERISTIC OF THE STUDY AREA	22
4.1. Physical characteristic	22
4.2. Demographic characteristic	25
4.2.1. Population	25
4.2.2. Education level	27
4.2.3. Occupation	28
4.2.4. Religions and beliefs	29
4.2.5. Cultural custom and ceremony	30
4.2.6. Health situation	32
4.2.7. Village organization	33
4.3. Land use system and cropping pattern	33
4.3.1. Land use system	34
4.3.2. Cropping pattern	34
4.4. Economic characteristics	36
4.4.1. Household income	36
4.4.2. Household expenditure	37
CHAPTER V HMONG WOMEN'S ROLE IN HOUSEHOLD FOOD PRODUCTION, CONSUMPTION, SOURCES OF FOOD, AND FOREST MANAGEMENT	40
5.1. Hmong women's role in household food production and consumption	41
5.1.1. Women role in household food production	41
5.1.2. Women role in household food consumption	44
5.2. Hmong women's roles in household	48
5.2.1. Women role in housework	50
5.2.2. Women role in home garden	53
5.3. Access to food of Hmong household	58
5.3.1. Food for household consumption	59

	Page
5.3.2. Source of food	60
5.4. Women and forest management	61
CHAPTER VI WILD PLANT UTILIZATION BY HMONG WOMEN	64
6.1. Wild plants for household utilization	64
6.1.1. Food	67
6.1.2. Medicinal plants	72
6.1.3. Fuelwood	77
6.1.4. Fodder	79
6.1.5. Time spending for wild plant collection	80
6.2. Indigenous knowledge in wild plant utilization by Hmong women	82
6.3. Pattern of wild plant utilization	89
6.4. Sources of wild plant collection	90
6.5. Wild plant utilization's knowledge transfer	92
6.6. Economic valuation of wild plants	96
CHAPTER VII CONCLUSION AND RECOMMENDATION	100
7.1. Conclusion	100
7.2. Discussion	103
7.3. Recommendation	110
REFERENCES	112
APPENDICES	116
Appendix A Gathered wild plants species	117
VITAE	127

LISTS OF TABLES

Table	Page
1 Population of Huay Hoi village classified by age and sex	26
2 Average of household size in Huay Hoi village	26
3 Average of agricultural labor size in Huay Hoi village	27
4 Education level of villagers in Huay Hoi village	28
5 Occupation of interviewed villagers in Huay Hoi village classified by sex,	29
6 Religions and beliefs in Huay Hoi village	30
7 Average household income per year	37
8 Household expenditure of interviewed household	38
9 Food expenditure per household in Huay Hoi village	39
10 Time spending in rice fields work in Huay Hoi village.	42
11 Time spending in vegetable fields in Huay Hoi village.	43
12 Schedule of women task in each day	45
13 Example type of food in 5 days that consumed by villagers	46
14 Labour division in household works in Huay Hoi village	49
15 Gender role in housework of Hmong in Huay Hoi village	52
16 List of food crop species in home garden	55
17 List of medicinal herb species in home garden	57
18 Women's participation in forest conversation in Huay Hoi village	63
19 The household collection of wild plants in Huay Hoi village	65
20 Wild plant species which were gathered by the Hmong people in Huay Hoi village	66
21 Seasonal calendar of main forest products of the study area	69
22 Wild food plant species classified by parts of use	71
23 The examples of quantities of popular wild food plants per year	72
24 Examples of pattern of use of medicinal plants to reduce common illnesses	74

Table	Page
25 Examples of medicinal plants that were gathered from the forests nearby village and crop fields	76
26 Examples of species of fuelwood collected	78
27 The average quantities of fuelwood collected by women and men per year	79
28 Average amount of fodder gathered by women and men per year	80
29 Time spending for wild plant collection among interview villagers	81
30 Time spending for wild plant collection of women and men	81
31 Example of wild plant species that used as food in household consumption	84
32 Medicinal plants species and uses in Hmong household	88
33 The pattern of wild plant collection in different utilization purposes, Huay Hoi village	90
34 Market price and value of wild plants in Huay Hoi village	98
