Chapter 1 Introduction	1
1.1 Background	1
1.1.1 Agricultural development situation in Nepal	1
1.1.2 Food security situation in Nepal	2
1.1.3 Traditional alcohol use in Nepal	5
1.1.4 Ethnic/caste composition in Nepal	6
1.1.5 Tharu ethnic group in Nepal	8
1.1.6 Community system in Nepal	10
1.1.7 Agricultural extension system in Nepal	10
1.2 An overview of plan and policies for the agricultural development of Nepal	11
1.2.1 Agriculture perspective plan (APP)	11
1.2.2 National agriculture policy	13
1.2.3 Local self governance act	13
1.3 Rationale of the study	14
1.4 Objectives of the study	17
1.5 Expected contribution of the study	18

Chapter 2	Literature review	19
2.1	Concept and definition of food security	19
2.2	Dimension of food security	19
2.3	Food security and performance of production system	20
2.4	Food security and ethnic community	20
2.5	Food security and vulnerability	21
2.6	Food security and policy	23
2.7	Food security and resources	25
2.8	Food security and institutions	27
2.9	Food security and calorie requirements	29
2.10	Food security and its assessment methods	31
Chapter 3	Research methods	33
3.1	Conceptual framework	33
3.2	Study sites and field survey	34
3.3	Data analysis	35
3.3.1	Household food security analysis	35
3.3.2	Identification of key factors affecting food security	40
3.3.3	Constraints and strategies for improving food security	44
Chapter 4	Description of the study area	45
4.1	Location of study area	45
4.2	Location of surveyed community sites under the study area	46
4.3	Topography of the study area	48
4.4	Climate of the study area	48
4.5	Caste/ethnicity composition of Dang district	49
4.6	Selected Village Development Committees /Municipality sites and their village sites	50
4.7	Description of household activities in Tharu community sites	51

4.8	Demographic structure of Dang district	52
4.9	Demographic structure of Tharu community sites	53
4.10	Land use pattern of Dang district	54
4.11	Land holding by caste/ethnic group of Dang district	55
4.12	Land tenure system of Dang district and surveyed Tharu community sites	55
4.13	Water resources availability of Dang district	57
4.14	Forest resources of Dang district	57
4.15	Institutions of the study area	59
4.16	Public local institutions	60
4.17	Non governmental organizations	62
4.18	Tharu traditional institutions	63
4.19	Market and transport service facility of Dang district	65
4.20	Production and productivity of the study area and selected villages	66
	4.20.1 Cropping systems	66
	4.20.2 Yield of cereal crops	66
	4.20.3 Livestock and its production	67
4.21	Food availability and requirement of Dang district	67
Chapter 5	Farming systems, resource use and livelihood patterns of Tharu ethnic communities	69
5.1	Farming systems in Tharu ethnic community sites	69
	5.1.1 Crops and cropping pattern system in Tharu ethnic community sites	71
	5.1.2 Crop coverage area pattern in Tharu farming community sites	72
	5.1.3 Cropping intensity in Tharu farming community areas	73
	5.1.4 Cereal yield under Tharu Farming community areas	73

5.2	Livestock production system in Tharu farming community areas	74
5.3	Community level resource use pattern in Tharu community areas	75
5.3.1	Land use pattern in Tharu farming community areas	75
5.3.2	Water resources in Tharu farming community areas	76
5.3.3	Demographic resources in Tharu farming community areas	77
5.4	Availability of resources and inputs in Tharu farming community	78
5.5	Production inputs used by Tharu farming community	79
5.6	Availability of service and infrastructure facilities in Tharu community sites	80
5.7	Community level involvement in agriculture extension services	82
5.8	Community level involvement in resource and input management	83
5.9	Community level Tharu traditional leader and institutions and their role	83
5.10	Food consumption pattern in Tharu community areas	86
5.11	Tharu culture	87
5.12	Tharu festival	88
5.13	Uses of cereal for making alcohol in Tharu communities	89
5.14	Traditional alcohol consumption in Tharu communities	90
Chapter 6	Household conditions and food security pattern	93
6.1	Household food security	93
6.2	Household food security status by villages of Tharu communities	94
6.3	Variability of food security of households among Tharu ethnic communities	95
6.3.1	Variability of household food security within each category of households	96
6.3.2	Households distribution by household food adequacy	97

6.4	Household economic conditions and food security pattern	98
6.4.1	Household income sources by food security status	98
6.4.2	Farm income sources by different crops and food security status	100
6.4.3	Sale quantity of domestic cereal product by food security status	100
6.4.4	Household income distribution by food security status	101
6.4.5	Access to market by food security status	102
6.4.6	Expenditure on food by food security status	103
6.5	Household social condition and food security pattern	104
6.5.1	Consumption pattern of cereal by household food security status	104
6.5.2	Farm size by food security status	104
6.5.3	Sex of head of household by food security status	108
6.5.4	Education head of household by food security status	108
6.5.5	Household size distribution by food security status	109
6.5.6	Health Status head of household by food security status	110
6.5.7	Distribution of age of household head of household by food security status	110
6.6	Household institutional pattern and food security pattern	111
6.6.1	Household access to extension service by food security status	111
6.6.2	Participation on agricultural group by food security status	112
6.6.3	Adoption of modern rice variety seed by food security status	112
6.7	Household ecological condition and food security pattern	113
6.7.1	Yield stability by food security status	113
6.7.2	Access to irrigation by food security status	114

6.7.3	Quantity of own production by food security status	114
Chapter 7	Factors affecting household food security	117
7.1	Sources of household food flows among Tharu ethnic communities	117
7.2	Household food flows among Tharu community's food secure households	119
7.3	Household food flows among Tharu community's marginally food secure households	121
7.4	Household food flows among Tharu community's food insecure households	122
7.5	Household food security from sources of household food flows	124
7.6	Factors affecting household food adequacy	126
7.7	Results of Ordinary Least Square (OLS) regression analysis	127
7.8	Seasonality and food security	131
7.9	Rich picture of food insecurity of Tharu ethnic communities	135
7.10	Food coping strategies of household	137
Chapter 8	Constraints and challenges to food security and strategies for improving food security situation of Tharu ethnic communities	140
8.1	Existing development program and activities for the support of agricultural development in Nepal	140
8.2	Existing development program and activities for the support of food security of Tharu community in study area	142
8.3	Constraints to food security	143
8.3.1	Perceptions of Tharu community's farmers on constraints to food security	143
8.3.2	Different perceptions of organizations on constraints to food security	147

8.4	Current challenges and opportunities for improving food security of Tharu communities in Nepal	148
8.5	Proposed Strategies for improving food security of Tharu communities	151
Chapter 9	Conclusions and recommendations	153
9.1	Farming systems, resource use and livelihood of Tharu ethnic community	153
9.2	Food security pattern and factors affecting food security	154
9.3	Constraints and challenges to food security	155
9.4	Recommendations	156
9.4.1	Community level	157
9.4.2	District level	157
9.4.3	Policy level	158
9.5	Further possible research	159

List of Tables

Table	Page
1.1 Edible cereal grain production and requirement in Nepal	4
1.2 Cast/ethnic group of Nepal	7
3.1 Household conditions as factors of food security as independent variables	40
3.2 List of independent variables description and it's the relationship with dependent variable	42
4.1 Temperature and rainfall of study area	48
4.2 Tharu population of selected VDC/Municipality	51
4.3 Population by age, sex in study area	53
4.4 Demographic structure of surveyed Tharu Community sites	54
4.5 Land use and utilization situation of Dang district	54
4.6 Average area of landholdings by surveyed Tharu community sites	56
4.7 Yield of cereal	67
4.8 Food availability and requirement of Dang district	68
5.1 Cropping pattern system of Tharu ethnic community sites	71
5.2 Crop coverage area of Tharu ethnic community sites	73
5.3 Cereal yield under Tharu Farming community sites	74
5.4 Distribution of households by land owned	75
5.5 Economically active population by source of employment	78
5.6 Uses of production inputs by Tharu farming community	79
5.7 Infrastructures facilities used by Tharu community's households	81
5.8 Community level involvement in agriculture extension services	82

Table	Page
5.9 Community level involvement in resource and input management	83
5.10 Calorie availability for food consumption by sources of food	87
5.11 Cereal uses for making alcohol as compared to their consumption by households	90
6.1 Household food security status by villages of Tharu communities	95
6.2 Food security status by households	96
6.3 Annual average household incomes by sources and food security status	99
6.4 Average farm income sources from crop by food security status	100
6.5 Sale quantity of domestic cereal product	101
6.6 Distribution of households by annual total income and food security status	102
6.7 Distribution of households by access to market and food security status	102
6.8 Expenditure on food by food security status	103
6.9 Average food consumption pattern of cereal by food security status	104
6.10 Distribution of farm ownership by status of food security	105
6.11 Distribution of full land ownership by farm size and food security status	107
6.12 Distribution of households by size of total cultivating land by food security status	107
6.13 Sex of head of household by food security status	108

Table	Page
6.14 Education head of household by food security status	109
6.15 Household size distribution by food security status	109
6.16 Health status head of household by food security status	110
6.17 Distribution of age of household head by food security status	111
6.18 Household access to extension services by food security status	111
6.19 Participation on agricultural group by food security status	112
6.20 Adoption of modern rice variety seed head of household by food security status	113
6.21 Access to irrigation head of household by food security status	114
6.22 Quantity of own production by food security status	115
7.1 Sources of household food inflows	118
7.2 Sources of household food outflows	119
7.3 Household food security from sources of household food outflows	125
7.4 Results of OLS regression analysis	128
7.5 Seasonality and food security	133
8.1 Existing development program and activities of Nepal	141
8.2 Program and activities from different level in the study area	143
8.3 Perceptions of Tharu community's farmers on constraints to food security	144
8.4 Proposed strategies for improving food security and livelihoods of Tharu ethnic communities	152

List of Figures

Figure		Page
3.1	Conceptual framework for studying food security in this study	34
4.1	Map of Nepal with the study area	46
4.2	Location of twelve study community sites under Dang district	47
4.3	Cast/ ethnicity of Dang district	49
4.4	Land tenure by ethnicity/ caste of Dang district	55
5.1	Farming systems in Tharu farming communities	70
5.2	Access to irrigation in Tharu ethnic community sites	76
6.1	Degree of food security by households	94
6.2	Variability of household food security within each category of households	96
6.3	Households distribution by household food adequacy percentage	97
6.4	Farm use pattern by household status	106
6.5	Yield stability by food security status	113
7.1	Household food flows among Tharu community's food secure households	120
7.2	Household food flows among Tharu community's marginally food secure households	122
7.3	Household food flows among Tharu community's food insecure households	123
7.4	Factors affecting seasonality of food security situation	134
7.5	Rich picture of household food inadequacy of Tharu ethnic communities	136
