Acknowledgement

I especially like to thank my advisor, Assoc. Prof. Dr. Soraya Ruamrungsri for the support she gave me throughout this research. She was resourceful, supportive, patient, available and demanding while easy going.

I would like to thank my committee members, Assoc. Prof. Dr. Nuttha Potapohn and Asst. Dr. Supamit Mekchay for their support and encouragement.

I am grateful to all other people whose names I cannot recall instantly but helped me directly or indirectly to complete this study successfully.

I would like to thank for financially funded by This thesis is partially supported by the Center for Agricultural Biotechnology, Postgraduate Education and Research Development Office, Commission on Higher Education, Ministry of Education and the scholarship of Rajamangala University of Technology Lanna.

Finally, I am sincerely indebted and thankful to my parents and my family for their huge encouragements.
