ACKNOWLEDGEMENTS

The author would like to express his especial gratitude to the Chairperson of Agricultural Systems Program and all of his lectures at Multiple Cropping Centre and the Faculty of Agriculture, Chiang Mai University, Thailand for the support, guidance and dedication of their for the success of this study. Especially, the author heartfelt gratitude goes to his thesis advisor Asst. Prof. Dr. Chanchai Sangchyoswat for his careful guidance, invaluable and patient supervision, support and encouragement leading towards the successful completion of this thesis. The author would like to gratitude to co-advisor Assoc. Prof. Dr. Attachai Jintrawet for his suggestion, expertise, and valuable guidance throughout the period of study at Chiang Mai University; and co-advisor Asst. Prof. Dr. Yaovarate Chaovanapoonphol for her guidance, sharp and smart ideas on data analysis. The author also wishes to extend sincere thanks to Ajarn Phrek Gypmantasiri, the member of the examination committee for spending precious time in examining his thesis and giving his invaluable comments and advices to improve this thesis.

Special thanks to Faculty of Natural Resources and Environment, Thai Nguyen University of Agriculture and Forestry of Vietnam for providing me with this opportunity for higher studies at Chiang Mai University, Thailand. Thanks also express to Decision Support Systems Research and Development Network, Thailand (TRF-DSS) for their financial support under grant No. RDG52O0003-DSSLTV/001/2552 throughout the stay in Thailand and for making this study possible.

Many thanks in particular to my teachers Asst. Prof. Dr. Nguyen The Hung, Dr. Dam Xuan Van, Dr Truong Thanh Nam in Thai Nguyen University of Agriculture and Forestry, Vietnam for their guidance and supporting in this study. The author also would like to thanks to all staff of Tuc Duyen ward and respondents who willingly answered interview questionnaires and helped author in the survey. And also gratitude to the friends: Nguyen Thi Hai An, Nguyen Viet Dung, Hoang Ngan Hai, Nguyen Huu Minh, Nguyen Thi Kim Phuong who helped during the data collection.

The author delighted profoundly to show appreciations for their warm and cordial friendship provided, they are all AGS students- seniors and classmates: Mrs. Thida, Mrs. Samanmali, Mr. Arif, Ms. Aung, Ms. Khaing, Ms. Cho, Mr. Khamko.

Many thanks also go on to all Vietnamese students who study in other faculties and other programs for helping and sharing fantastic movements in Chiang Mai, Thailand.

The author would like to extend my greatest appreciation to my beloved family: my father Nguyen Ngoc Nong, my mother Do Thi Bac, and my younger sister Nguyen Ngoc Dung who always gives their indescribable loves, inspiration, encouragement and supports during the last time.

Finally, the author wishes to record and thank everyone whose names could not be mentioned individually.

Nguyen Ngoc Son Hai
