## ACKNOWLEDGEMENTS

The successful completion of this thesis was achieved with invaluable support, contributions, suggestions and guidance from a number of people who are working in various disciplines. As the author, I would like to express my deepest gratitude, highest appreciation and sincere thanks as follows:

First of all, I would like to acknowledge the International Center for Tropical Agriculture (CIAT) for giving the appropriate opportunity to enhance my knowledge and The Nippon Foundation for financial support through whole period of the study. Additional support from the National Research University Project of the Commission of Higher Education of Thailand is also gratefully acknowledged.

I am deeply grateful to my advisors, Professor Dr. Benjavan Rerkasem and Associate Professor Dr. Sansanee Jamjod for their all support during the long process of this thesis, particular for guidance during difficulties. I also thank Dr. Tin Muang Aye, coordinator for CIAT in Bangkok, Thailand, and a committee chairperson for providing and giving me opportunities and continuous support during the long research process.

I wish to acknowledge my special thanks to Dr. Rod Lefroy, Regional Coordinator for CIAT in Asia and Dr. Reinhardt Howeler, CIAT Cassava Agronomist for Asia. Mr. Phoumi Inthapanya, Director of Rice and Cash Crops Research Center, NAFRI, Lao PDR also provided considerable assistance for this study.

Thanks to all workmates and friends in Lao PDR who always helped during my study, especially Mr. Saythong Uthachit, Mr. Lao Thao and Ms. Douangsavanh Chantana.

At the Faculty of Agriculture, Chiang Mai University, I would like to thank all learned professors and lecturers for their thought-inspiring lectures and moral support.

Many thanks go to the Department of Plant Science and Natural Resources' staff who offered kind assistance during my stay in Chiang Mai. And profound thanks go to CMUPN*lab*, Faculty of Agriculture for providing the necessary equipment for my research, and to all the CMUPN*lab* staff, especially Dr. Sittichai Loardkaew for soil and plant nutrient analysis.

I am grateful to all the students at the CMUPN*lab* for their help and information sharing, especially Dr. Ayut Kongpun.

Finally, sincere, heartfelt thanks to my parents, uncle, aunt, brothers and sisters who have continuously supported and encouraged me to complete this study.

Phanthasin Khanthavong
