ACKNOWLEDGEMENTS

I would like to express my deep gratitude and sincere appreciation to the following:

Assoc. Prof. Dr. Sakda Jongkaewwattana, advisor and chairperson of my guidance committee, for his invaluable help, understanding and kind encouragement in the conduct of the study, as well as in the preparation of the manuscript;

Asst. Prof. Dr. Sawit Meechoui and Assoc. Prof. Dr. Sugunya Wongpornchai, members of my guidance committee, Assoc. Prof. Dr. Dumnern Karladee and Assoc. Prof. Prawit Puddhanon, my examining committee, for their helpful suggestions in the improvement of the manuscript;

Ajarn. Vite Anusatsananun, Lamphun College of Agriculture and Technology, Mr. Kritsada Pitija, Department of Chemistry, Faculty of Science, Chiang Mai University, Mr. Jakkapong Somnongwa and Mr. Decha Nuamyam for their valuable assistance;

I'm also thankful to all of my good friends and colleagues for their help, moral support and sincere friendship.

Finally, profound gratitude is due to my parents and relatives for their love, inspiration and encouragement. To them, this piece of work is dedicated.

Saibua Khempet
