ABSTRACT (ENGLISH)	iv
ABSTRACT (THAI)	vii
TABLE OF CONTENTS	x
LIST OF TABLES	xiii
LIST OF FIGURES	xx
CHAPTER 1 INTRODUCTION	1
CHAPTER 2 LITERATURE REVIEW	4
1. Survey, collection and utilization of local vegetable	4
2. Botanical aspects of <i>Peliosanthes teta</i> Andr., <i>Basella alba</i> L. and <i>Gymnema inodorum</i> Decne.	6
2.1 <i>Peliosanthes teta</i> Andr.	6
2.2 <i>Basella alba</i> L.	9
2.3 <i>Gymnema inodorum</i> Decne.	13
3. Plant characterization	15
3.1 Morphology of plant parts	17
3.2 Pollen morphology	18
3.3 Internal structure of plant parts	27
3.4 Cytogenetical and cytotaxonomical studies	36
3.5 Chemotaxonomy	44
CHAPTER 3 MATERIALS AND METHODS	51
1. Surveys and collections	51
2. Growth pattern	52
3. Morphological characterization	52
4. Pollen morphology	54
5. Anatomical characterization	55

TABLE OF CONTENTS (Continued)

	Page
6. Karyotypic characterization	58
7. Isozyme pattern investigation	61
CHAPTER 4 RESULTS	64
1. Surveys and Collections	64
1.1 <i>Peliosanthes teta</i> Andr.	68
1.2 <i>Basella alba</i> L.	72
1.3 <i>Gymnema inodorum</i> Decne.	77
2. Growth pattern	79
2.1 <i>Peliosanthes teta</i> Andr.	79
2.2 <i>Basella alba</i> L.	86
2.3 <i>Gymnema inodorum</i> Decne.	94
3. Morphological characterization	100
3.1 <i>Peliosanthes teta</i> Andr.	100
3.2 <i>Basella alba</i> L.	109
3.3 <i>Gymnema inodorum</i> Decne.	119
4. Pollen morphology	127
4.1 <i>Peliosanthes teta</i> Andr.	127
4.2 <i>Basella alba</i> L.	130
4.3 <i>Gymnema inodorum</i> Decne.	136
5. Anatomical characterization	139
5.1 <i>Peliosanthes teta</i> Andr.	139
5.2 <i>Basella alba</i> L.	148
5.3 <i>Gymnema inodorum</i> Decne.	169
6. Karyotypic characterization	180
6.1 <i>Peliosanthes teta</i> Andr.	180
6.2 <i>Basella alba</i> L.	200
6.3 <i>Gymnema inodorum</i> Decne.	227

TABLE OF CONTENTS (Continued)

	Page
7. Isozyme pattern investigation	242
7.1 <i>Peliosanthes teta</i> Andr.	242
7.2 <i>Basella alba</i> L.	256
7.3 <i>Gymnema inodorum</i> Decne.	269
CHAPTER 5 CONCLUSION AND DISCUSSION	286
REFERENCES	294
APPENDICES	309
Appendix A Histological preparation	310
Appendix B Preparation of carbol fuchsin dye	312
Appendix C Chemical reagent preparation for isozyme pattern investigation	313
CURRICULUM VITAE	319

LIST OF TABLES

Table		Page
1	Pollen shape classes and the ratio of polar diameter (P) and equatorial diameter (E)	21
2	Nomenclature of chromosomes based on Dyer (1979) and Levan <i>et al.</i> (1964)	39
3	Geographic position and altitude of sampling locations	65
4	Number of samples collected from different districts	66
5	Accession codes of collected samples	67
6	Average values (\pm SD) of plant parts of <i>Peliosanthes teta</i> Andr. measured at mature stage	86
7	Average values (\pm SD) of plant parts of Phak Plang Khao measured at mature stage	93
8	Average values (\pm SD) of plant parts of Phak Plang Daeng measured at mature stage	93
9	Average values (\pm SD) of plant parts of <i>Gymnema inodorum</i> Decne. measured at mature stage	99
10	Total number of accessions with accession codes of classified <i>Peliosanthes teta</i> Andr.	109
11	Total number of accessions with accession codes of classified <i>Basella alba</i> L.	119
12	Total number of accessions with accession codes of classified <i>Gymnema inodorum</i> Decne.	127
13	Size and feature of <i>Peliosanthes teta</i> Andr. pollen from different samples	130
14	Size and feature of Phak Plang Khao pollen from different samples	135
15	Size and feature of Phak Plang Daeng pollen from different samples	135
16	Size and shape of <i>Gymnema inodorum</i> Decne. pollinium from different samples	138
17	Size (length) and type of CM <i>Peliosanthes teta</i> Andr. chromosomes	183

LIST OF TABLES (Continued)

Table	Page
18 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CM <i>Peliosanthes teta</i> Andr. chromosomes	184
19 Size (length) and type of CR <i>Peliosanthes teta</i> Andr. chromosomes	185
20 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CR <i>Peliosanthes teta</i> Andr. chromosomes	186
21 Size (length) and type of LP <i>Peliosanthes teta</i> Andr. chromosomes	187
22 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LP <i>Peliosanthes teta</i> Andr. chromosomes	188
23 Size (length) and type of LN <i>Peliosanthes teta</i> Andr. chromosomes	189
24 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LN <i>Peliosanthes teta</i> Andr. chromosomes	190
25 Size (length) and type of MH <i>Peliosanthes teta</i> Andr. chromosomes	191
26 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of MH <i>Peliosanthes teta</i> Andr. chromosomes	192
27 Size (length) and type of NA <i>Peliosanthes teta</i> Andr. chromosomes	193
28 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of NA <i>Peliosanthes teta</i> Andr. chromosomes	194
29 Size (length) and type of PY <i>Peliosanthes teta</i> Andr. chromosomes	195
30 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PY <i>Peliosanthes teta</i> Andr. chromosomes	196
31 Size (length) and type of PH <i>Peliosanthes teta</i> Andr. chromosomes	197

LIST OF TABLES (Continued)

Table	Page
32 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PH <i>Peliosanthes teta</i> Andr. chromosomes	198
33 Range of chromosome size concluded from samples of <i>Peliosanthes teta</i> Andr. from different locations	199
34 Karyotypic formula of <i>Peliosanthes teta</i> Andr. collected from different sites	199
35 Size (length) and type of CM Phak Plang Khao chromosomes	203
36 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CM Phak Plang Khao chromosomes	203
37 Size (length) and type of CR Phak Plang Khao chromosomes	204
38 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CR Phak Plang Khao chromosomes	205
39 Size (length) and type of LP Phak Plang Khao chromosomes	206
40 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LP Phak Plang Khao chromosomes	206
41 Size (length) and type of LN Phak Plang Khao chromosomes	207
42 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LN Phak Plang Khao chromosomes	208
43 Size (length) and type of MH Phak Plang Khao chromosomes	209
44 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of MH Phak Plang Khao chromosomes	209
45 Size (length) and type of NA Phak Plang Khao chromosomes	210

LIST OF TABLES (Continued)

Table	Page
46 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of NA Phak Plang Khao chromosomes	211
47 Size (length) and type of PY Phak Plang Khao chromosomes	212
48 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PY Phak Plang Khao chromosomes	212
49 Size (length) and type of PH Phak Plang Khao chromosomes	213
50 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PH Phak Plang Khao chromosomes	214
51 Size (length) and type of CM Phak Plang Daeng chromosomes	215
52 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CM Phak Plang Daeng chromosomes	215
53 Size (length) and type of CR Phak Plang Daeng chromosomes	217
54 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CR Phak Plang Daeng chromosomes	217
55 Size (length) and type of LP Phak Plang Daeng chromosomes	218
56 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LP Phak Plang Daeng chromosomes	219
57 Size (length) and type of LN Phak Plang Daeng chromosomes	220
58 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LN Phak Plang Daeng chromosomes	220
59 Size (length) and type of NA Phak Plang Daeng chromosomes	221

LIST OF TABLES (Continued)

Table	Page
60 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of NA Phak Plang Daeng chromosomes	222
61 Size (length) and type of PY Phak Plang Daeng chromosomes	223
62 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PY Phak Plang Daeng chromosomes	223
63 Size (length) and type of PH Phak Plang Daeng chromosomes	224
64 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PH Phak Plang Daeng chromosomes	225
65 Range of chromosome size concluded from samples of <i>Basella alba</i> L. variety Phak Plang Khao from different locations	226
66 Range of chromosome size concluded from samples of <i>Basella alba</i> L. variety Phak Plang Daeng from different locations	226
67 Karyotypic formula of <i>Basella alba</i> L. variety Phak Plang Khao collected from different sites	227
68 Karyotypic formula of <i>Basella alba</i> L. variety Phak Plang Daeng collected from different sites	228
69 Size (length) and type of CM <i>Gymnema inodorum</i> Decne. chromosomes	230
70 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CM <i>Gymnema inodorum</i> Decne. chromosomes	230
71 Size (length) and type of CR <i>Gymnema inodorum</i> Decne. chromosomes	231
72 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of CR <i>Gymnema inodorum</i> Decne. chromosomes	232
73 Size (length) and type of LP <i>Gymnema inodorum</i> Decne. chromosomes	233

LIST OF TABLES (Continued)

Table	Page
74 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LP <i>Gymnema inodorum</i> Decne. chromosomes	233
75 Size (length) and type of LN <i>Gymnema inodorum</i> Decne. chromosomes	234
76 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of LN LP <i>Gymnema inodorum</i> Decne. chromosomes	234
77 Size (length) and type of MH <i>Gymnema inodorum</i> Decne. chromosomes	235
78 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of MH <i>Gymnema inodorum</i> Decne. chromosomes	236
79 Size (length) and type of NA <i>Gymnema inodorum</i> Decne. chromosomes	237
80 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of NA <i>Gymnema inodorum</i> Decne. chromosomes	237
81 Size (length) and type of PY <i>Gymnema inodorum</i> Decne. chromosomes	238
82 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PY <i>Gymnema inodorum</i> Decne. chromosomes	238
83 Size (length) and type of PH <i>Gymnema inodorum</i> Decne. chromosomes	239
84 Average length of short arm (Ls) and long arm (Ll), chromosome length (LT), relative length (RL) and centromeric index (CI) of PH <i>Gymnema inodorum</i> Decne. chromosomes	240
85 Range of chromosome size concluded from samples of <i>Gymnema inodorum</i> Decne. from different locations	241
86 Karyotypic formula of <i>Gymnema inodorum</i> Decne. collected from different sites	241
87 ACP banding of <i>Peliosanthes teta</i> Andr.	244

LIST OF TABLES (Continued)

Table	Page
88 EST banding of <i>Peliosanthes teta</i> Andr.	246
89 GOT banding of <i>Peliosanthes teta</i> Andr.	248
90 LAP banding of <i>Peliosanthes teta</i> Andr.	249
91 MDH banding of <i>Peliosanthes teta</i> Andr.	251
92 POX banding of <i>Peliosanthes teta</i> Andr.	253
93 Total number of samples with accession codes of classified <i>Peliosanthes teta</i> Andr. via polyacrylamide gel electrophoresis	256
94 ACP banding of <i>Basella alba</i> L.	258
95 EST banding of <i>Basella alba</i> L.	260
96 GOT banding of <i>Basella alba</i> L.	262
97 MDH banding of <i>Basella alba</i> L.	264
98 POX banding of <i>Basella alba</i> L.	266
99 Total number of samples with accession codes of classified <i>Basella alba</i> L. via polyacrylamide gel electrophoresis	269
100 ACP banding of <i>Gymnema inodorum</i> Decne.	269
101 EST banding of <i>Gymnema inodorum</i> Decne.	271
102 GDH banding of <i>Gymnema inodorum</i> Decne.	272
103 GOT banding of <i>Gymnema inodorum</i> Decne.	274
104 LAP banding of <i>Gymnema inodorum</i> Decne.	276
105 MDH banding of <i>Gymnema inodorum</i> Decne.	278
106 POX banding of <i>Gymnema inodorum</i> Decne.	280
107 Total number of samples with accession codes of classified <i>Gymnema inodorum</i> Decne. via polyacrylamide gel electrophoresis	285

LIST OF FIGURES

Figure	Page
1 Pollen polarity	19
2 Pollen wall structure	22
3 An idiogram of a metaphase chromosome	38
4 Map of sampling sites	65
5 <i>Peliosanthes teta</i> Andr. in cultivation	69
6 <i>Peliosanthes teta</i> Andr.	69
7 <i>Peliosanthes teta</i> Andr. in natural habitat	70
8 Inflorescence of <i>Peliosanthes teta</i> Andr. in local markets	71
9 <i>Peliosanthes teta</i> Andr. in cultivation plot	72
10 <i>Basella alba</i> L. trailing over fences or on wooden stakes	73
11 Stem, inflorescence and fruit of <i>Basella alba</i> L.	74
12 Phak Plang Khao and Phak Plang Daeng	74
13 Young shoot and inflorescence of Phak Plang Khao in local markets	75
14 <i>Basella alba</i> L. in cultivation plots	76
15 <i>Gymnema inodorum</i> Decne. in the backyard gardens	77
16 <i>Gymnema inodorum</i> Decne. in cutting bed and in cultivation plots	78
17 Drawing of <i>Peliosanthes teta</i> Andr. shoots at different stages of growth	80
18 Drawing of <i>Peliosanthes teta</i> Andr. plant with expanding leaf blades	81
19 Drawing of <i>Peliosanthes teta</i> Andr. plant at mature stage	82
20 Drawing of <i>Peliosanthes teta</i> Andr. plant bearing young inflorescence	83
21 Drawing of <i>Peliosanthes teta</i> Andr. plant in bloom	84
22 Diagrammatic illustration of <i>Peliosanthes teta</i> Andr. plants in annual circle	85
23 Diagram showing annual circle of growth of <i>Peliosanthes teta</i> Andr.	86
24 Diagram showing circle of growth of <i>Basella alba</i> L. from seed	87
25 Drawing of the top part of <i>Basella alba</i> L. seedling	88
26 Drawing of <i>Basella alba</i> L. foliage shoot	89

LIST OF FIGURES (Continued)

Figure	Page
27 Drawing of inflorescence of <i>Basella alba</i> L.	90
28 Drawing of <i>Basella alba</i> L. shoot bearing fruits	91
29 Drawing of <i>Basella alba</i> L. at different stages of growth	92
30 Drawing of <i>Gymnema inodorum</i> Decne. cutting	95
31 Drawing of <i>Gymnema inodorum</i> Decne. inflorescence	96
32 Drawing of <i>Gymnema inodorum</i> Decne. pod	97
33 Drawing of dehisced pod of <i>Gymnema inodorum</i> Decne.	97
34 Illustration of <i>Gymnema inodorum</i> Decne. plant parts at various time of year	98
35 Diagram of growth stage of <i>Gymnema inodorum</i> Decne. at different time of year	99
36 <i>Peliosanthes teta</i> Andr. plant showing adventitious root	100
37 Root and rhizome of <i>Peliosanthes teta</i> Andr.	101
38 Cluster of <i>Peliosanthes teta</i> Andr. plants	101
39 <i>Peliosanthes teta</i> Andr. plant and detached leaf	102
40 Drawing of <i>Peliosanthes teta</i> Andr. plant bearing young inflorescence and mature inflorescence	103
41 Inflorescence of <i>Peliosanthes teta</i> Andr.	103
42 Flower of <i>Peliosanthes teta</i> Andr.	104
43 Drawing of flower and floral parts of <i>Peliosanthes teta</i> Andr.	105
44 Young fruit and mature fruit of <i>Peliosanthes teta</i> Andr.	106
45 Illustration of <i>Peliosanthes teta</i> Andr. plant and plant parts	106
46 Dendrogram showing genetic relationship among <i>Peliosanthes teta</i> Andr. accessions collected from different locations	108
47 Adventitious root of <i>Basella alba</i> L.	110
48 <i>Basella alba</i> L. variety Phak Plang Khao showing stem and leaf	110
49 Stem and leaf of <i>Basella alba</i> L. variety Phak Plang Daeng	111
50 Drawing of <i>Basella alba</i> L. leaves	112
51 Drawing of spike and panicle of <i>Basella alba</i> L.	113
52 Inflorescence of <i>Basella alba</i> L. variety Phak Plang Khao	113

LIST OF FIGURES (Continued)

Figure		Page
53	Inflorescence of <i>Basella alba</i> L. variety Phak Plang Daeng	114
54	Flower of <i>Basella alba</i> L.	115
55	Drawing of flower and floral parts of <i>Basella alba</i> L.	115
56	Drawing of fruit and seed of <i>Basella alba</i> L.	116
57	Fruit of <i>Basella alba</i> L.	116
58	Dried fruit and seed of <i>Basella alba</i> L.	117
59	Dendrogram showing genetic relationship of <i>Basella alba</i> L. accessions collected from different locations	118
60	Root of <i>Gymnema inodorum</i> Decne.	119
61	Stem and leaf of <i>Gymnema inodorum</i> Decne.	120
62	Drawing of <i>Gymnema inodorum</i> Decne. leaf	121
63	Drawing of <i>Gymnema inodorum</i> Decne. inflorescence	121
64	Inflorescence of <i>Gymnema inodorum</i> Decne.	122
65	Flower of <i>Gymnema inodorum</i> Decne.	123
66	Drawing of flower and floral parts of <i>Gymnema inodorum</i> Decne.	123
67	Drawing of fruit, dried fruit and seed of <i>Gymnema inodorum</i> Decne.	124
68	Fresh fruit, dehisced fruit and seed of <i>Gymnema inodorum</i> Decne.	124
69	Dendrogram showing genetic relationship of <i>Gymnema inodorum</i> Decne. accessions collected from different locations	126
70	<i>Peliosanthes teta</i> Andr. pollen seen under LM	128
71	Pollen of <i>Peliosanthes teta</i> Andr. seen under SEM	129
72	Pollen of 2 varieties of <i>Basella alba</i> L. under LM	131
73	Pollen of <i>Basella alba</i> L. variety Phak Plang Khao seen under SEM	132
74	Pollen of <i>Basella alba</i> L. variety Phak Plang Daeng seen under SEM	133
75	Aperture alignment of <i>Basella alba</i> L. pollen	134
76	Pollinium of <i>Gymnema inodorum</i> Decne. seen under SM	136
77	Pollinium of <i>Gymnema inodorum</i> Decne. seen under SEM	137
78	Longitudinal and transverse sections of <i>Peliosanthes teta</i> Andr. root from different sample	141

LIST OF FIGURES (Continued)

125	Root-tip chromosome of <i>Basella alba</i> L. stained for different duration	202
126	Somatic chromosome ($2n = 38$) and karyogram of CM Phak Plang Khao	204
127	Somatic chromosome ($2n = 38$) and karyogram of CR Phak Plang Khao	205
128	Somatic chromosome ($2n = 38$) and karyogram of LP Phak Plang Khao	207
129	Somatic chromosome ($2n = 38$) and karyogram of LN Phak Plang Khao	208
130	Somatic chromosome ($2n = 38$) and karyogram of MH Phak Plang Khao	210

LIST OF FIGURES (Continued)

Figure	Page
131 Somatic chromosome ($2n = 38$) and karyogram of NA Phak Plang Khao	211
132 Somatic chromosome ($2n = 38$) and karyogram of PY Phak Plang Khao	213
133 Somatic chromosome ($2n = 38$) and karyogram of PH Phak Plang Khao	214
134 Somatic chromosome ($2n = 44$) and karyogram of CM Phak Plang Daeng	216
135 Somatic chromosome ($2n = 44$) and karyogram of CR Phak Plang Daeng	218
136 Somatic chromosome ($2n = 44$) and karyogram of LP Phak Plang Daeng	219
137 Somatic chromosome ($2n = 44$) and karyogram of LN Phak Plang Daeng	221
138 Somatic chromosome ($2n = 44$) and karyogram of NA Phak Plang Daeng	222
139 Somatic chromosome ($2n = 44$) and karyogram of PY Phak Plang Daeng	224
140 Somatic chromosome ($2n = 44$) and karyogram of PH Phak Plang Daeng	225
141 Root-tip chromosome of <i>Gymnema inodorum</i> Decne. sampled at different time	228
142 Root-tip chromosome of <i>Gymnema inodorum</i> Decne. pre-treated at different duration	228
143 Root-tip chromosome of <i>Gymnema inodorum</i> Decne. stained for different duration	229
144 Somatic chromosome ($2n = 22$) and karyogram of CM <i>Gymnema inodorum</i> Decne.	231
145 Somatic chromosome ($2n = 22$) and karyogram of CR <i>Gymnema inodorum</i> Decne.	232

LIST OF FIGURES (Continued)

Figure		Page
146	Somatic chromosome ($2n = 22$) and karyogram of LP <i>Gymnema inodorum</i> Decne.	233
147	Somatic chromosome ($2n = 22$) and karyogram of LN <i>Gymnema inodorum</i> Decne.	235
148	Somatic chromosome ($2n = 22$) and karyogram of MH <i>Gymnema inodorum</i> Decne.	236
149	Somatic chromosome ($2n = 22$) and karyogram of NA <i>Gymnema inodorum</i> Decne.	237
150	Somatic chromosome ($2n = 22$) and karyogram of PY <i>Gymnema inodorum</i> Decne.	239
151	Somatic chromosome ($2n = 22$) and karyogram of PH <i>Gymnema inodorum</i> Decne.	240
152	ACP banding pattern of <i>Peliosanthes teta</i> Andr.	243
153	ACP zymogram of <i>Peliosanthes teta</i> Andr.	243
154	EST banding pattern of <i>Peliosanthes teta</i> Andr.	245
155	EST zymogram of <i>Peliosanthes teta</i> Andr.	245
156	GOT banding pattern of <i>Peliosanthes teta</i> Andr.	247
157	GOT zymogram of <i>Peliosanthes teta</i> Andr.	247
158	LAP banding pattern of <i>Peliosanthes teta</i> Andr.	248
159	LAP zymogram of <i>Peliosanthes teta</i> Andr.	249
160	MDH banding pattern of <i>Peliosanthes teta</i> Andr.	250
161	MDH zymogram of <i>Peliosanthes teta</i> Andr.	250
162	POX banding pattern of <i>Peliosanthes teta</i> Andr.	252
163	POX zymogram of <i>Peliosanthes teta</i> Andr.	252
164	Schematic zymogram of representative phenotypes of <i>Peliosanthes teta</i> Andr. reproduced from ACP, EST, GOT, MDH, LAP and POX enzyme systems	254
165	Dendrogram showing genetical relatedness of <i>Peliosanthes teta</i> Andr. accessions	255

LIST OF FIGURES (Continued)

166 ACP banding pattern of <i>Basella alba</i> L.	257
167 ACP zymogram of <i>Basella alba</i> L.	257
168 EST banding pattern of <i>Basella alba</i> L.	259
169 EST zymogram of <i>Basella alba</i> L.	259
170 GOT banding pattern of <i>Basella alba</i> L.	261
171 GOT zymogram of <i>Basella alba</i> L.	261
172 MDH banding pattern of <i>Basella alba</i> L.	263
173 MDH zymogram of <i>Basella alba</i> L.	263
174 POX banding pattern of <i>Basella alba</i> L.	265
175 POX zymogram of <i>Basella alba</i> L.	265
176 Schematic zymogram of representative phenotypes of <i>Basella alba</i> L. reproduced from ACP, EST, GOT, MDH and POX enzyme systems	267
177 Dendrogram showing genetical relatedness of <i>Basella alba</i> L. accessions	268
178 ACP banding pattern of <i>Gymnema inodorum</i> Decne.	270
179 ACP zymogram of <i>Gymnema inodorum</i> Decne.	270
180 EST banding pattern of <i>Gymnema inodorum</i> Decne.	271
181 EST zymogram of <i>Gymnema inodorum</i> Decne.	272
182 GDH banding pattern of <i>Gymnema inodorum</i> Decne.	273
183 GDH zymogram of <i>Gymnema inodorum</i> Decne.	273
184 GOT banding pattern of <i>Gymnema inodorum</i> Decne.	275
185 GOT zymogram of <i>Gymnema inodorum</i> Decne.	275
186 LAP banding pattern of <i>Gymnema inodorum</i> Decne.	277
187 LAP zymogram of <i>Gymnema inodorum</i> Decne.	277
188 MDH banding pattern of <i>Gymnema inodorum</i> Decne.	279
189 MDH zymogram of <i>Gymnema inodorum</i> Decne.	279
190 POX banding pattern of <i>Gymnema inodorum</i> Decne.	281
191 POX zymogram of <i>Gymnema inodorum</i> Decne.	281

LIST OF FIGURES (Continued)

Figure		Page
192	Schematic zymogram of representative phenotypes of <i>Gymnema inodorum</i> Decne. reproduced from ACP, EST, GDH, GOT, LAP, POX and MDH enzyme systems	283
193	Dendrogram showing genetical relatedness of <i>Gymnema inodorum</i> Decne. accessions	284
194	Longitudinal sections of <i>Basella alba</i> L. flower showing orientation of floral parts at the time of anther dehiscence	290
