ACKNOWLEDGEMENTS

I would like to express my sincere thanks and deep sense of gratitude to Dr. Arawan Shutsrirung, my advisor who encourage and support all of my achievements. I also would like to express my gratitude to Dr. Choochad Santasup and Dr. Kanokwan Sringarm, co-advisors, for their suggestions and support to my laboratory. I would like to express my gratitude to Assoc. Prof. Dr. Suchat Jiraporncharoen, Examining committee (chairperson) and Assoc. Prof. Dr. Soontorn Khamyong, for their valuable advice on my thesis.

A special thanks to Mrs. Ampa Pannathee, Miss Pikultong Suanong, Miss Tunyavee Saokumket and everybody involved directly and indirectly helps on my experimental works.

Finally, I would like to give the whole credit of my proud achievement to my family for everythings and looking forward for my successful Ph.D. dissertation.

Fapailin Chaiwon
