ACKNOWLEDGMENTS

Gratefully thanks are giving to Dr. Tri Indrarini Wirjantoro, my thesis advisor, who always gives the great support and sharing experimental techniques in my whole work and takes care of me through suggestion and discussion.

I thank Assist. Prof. Dr. Aphirak Phianmongkhol and Dr. Suthaya Phimphilai for being my examiners and give some comments for this independent study.

Sincerely thank to Mrs. Oratai Bunthawong for providing me her knowledge on foam-mat drying during my experimental work, and also, her help for a very nice accommodation during the experimental period.

Special thank for all the staff from Rajamangala University of Technology, Lampang province, in providing me the opportunity to use an oven drying and some laboratory areas to complete my works.

Last but not least, thank you very much for my wonderful family, especially my mother and father, for their great encouragement and financial support throughout my study.

Finally, I wish to thank all of my friends for supporting and cheering me up every time.

Duthathai Fujareon
