

TABLE OF CONTENTS

	PAGE
ACKNOWLEDGEMENTS	iii
ENGLISH ABSTRACT	iv
THAI ABSTRACT	vi
TABLE OF CONTENTS	viii
LIST OF TABLES	x
LIST OF FIGURES	xi
LIST OF ABBREVIATIONS	xii
CHAPTER I: INTRODUCTION	1
Research question and hypothesis	3
Purpose of the study	4
Application advantages	5
CHAPTER II: LITERATURE REVIEWS	
Information-processing approach	6
Attention as a human performance limitation	8
Reaction time and decision making	10
Cognitive workload assessment	13
Effect of cell phone distraction on driving performance	19
Cell phone conversation and cognitive workload	21

CHAPTER III: METHODS

Participants	23
Inclusion & exclusion criteria	23
Equipment	23
Independent and dependent variables	24
Driving situations detail	25
Experimental setup	26
Procedures	26
Data analysis	27
CHAPTER IV: RESULTS	28
CHAPTER V: DISCUSSION	36
CONCLUSION	45
FUTURE STUDY	46
REFERENCES	48
APPENDIX	
APPENDIX A Participant information data	55
APPENDIX B Consent form	56
APPENDIX C Working memory questions	58
APPENDIX D Simple conversation dialogue	61
APPENDIX E Driving simulation and equipments	65
CURRICULUM VITAE	68

LIST OF TABLES

TABLE	PAGE
1 Time domain analysis of HRV	17
2 Frequency domain analysis of HRV	18
3 Normal values of standard measures of heart rate variability	19
4 AMS-CMU 2006's driving description detail	25
5 The characteristics of participants	28
6 Comparison of driving performance between NC, SC and WC condition	29
7 Comparison between NC, SC and WC condition for heart rate and skin temperature	30
8 Comparison between NC, SC and WC condition for heart rate variability	32

LIST OF FIGURES

FIGURE		PAGE
1	The simple information-processing approach	7
2	Information processing of human performance	7
3	Diagram described of two task performing ability	10
4	Characteristic of reaction time	11
5	Classification of reaction time	13
6	Comparison between each testing condition for brake reaction time	30
7	Comparison between each testing condition for heart rate	31
8	Comparison between each testing condition for skin temperature	32
9	Comparison between each testing condition for RMSSD	34
10	Comparison between each testing condition for LFnu.	34
11	Comparison between each testing condition for HFnu	35
12	Comparison between each testing condition for LF/HF ratio	35

LIST OF ABBREVIATION

BRT	Brake reaction time
HFnu	High frequency in normalized unit
HRV	Heart rate variability
LFnu	Low frequency in normalized unit
LF/HF ratio	Ratio of low frequency and high frequency
Ms	millisecond
NC	No phone conversation
NN	Normal to normal heart beat
RT	Reaction time
RMSSD	Square root of the mean squared differences of successive intervals
SC	Simple phone conversation
SDNN	Standard deviation of all NN intervals
VLF	Very low frequency
WC	Working memory phone conversation
