Chapter 1 Bac	ckground of the thesis	1
1.1	Background	1
1.2	Aim of research	5
	1.2.1 Hypotheses	5
	1.2.2 Objectives	5
1.3	Conceptual framework	6
1.4	Definition	8
1.5	Location Chiang Mai University	9
1.6	Duration h t S r e s e r v	e ₉ c
Chapter 2 Lite	erature review	10
2.1	Health promotion	10

		2.1.1	Health promotion strategies	13
		2.1.2	Differing approaches to health promotion	17
		2.1.3	Evaluation of health promotion	20
	2.2	Health-	-promoting school	23
		2.2.1	Health-promoting school projects in Thailand	28
		2.2.2	Healthy eating in schools: How to tackle	32
			it with health-promoting school	
	2.3	Policy	development and implementation	37
		2.3.1	Steps in policy development	37
		2.3.2	Technique of policy development	43
		2.3.3	Policy implementation	46
		2.3.4	Four dimensions for understanding policy making	47
	2.4	Diet an	nd dental caries	48
	2.5	Dietary	assessment	49
		2.5.1	The 24 hour dietary recall	50
		2.5.2	Dietary record	51
		2.5.3	Food frequency questionnaire	51
		2.5.4	Diet history Diet history	52
	2.6	Action Summa	research Chiang Mai Universitary	52 54
Chapte	er 3 Res	search d	esign	55
	3.1	Researc	ch design	55
		3.1.1	Population and samples	56

xiii

	3.1.2 Instruments	59
	3.1.3 Research procedure	64
	3.1.4 Statistical analysis	72
	3.1.5 Ethical consideration	73
Chapter 4 Re	esults	74
4.1	Introduction	74
4.2	The assessment of the existing healthy eating policy	75
	for preschool children in public schools in Phrae province,	
	Thailand	
4.3	Healthy Eating Policy Development	77
	4.3.1 Healthy eating policy selection	78
	4.3.2 Healthy eating policy advocacy	84
	4.3.3 Healthy eating policy adoption	96
	4.3.4 Implementation of Healthy eating policy	102
	4.3.5 Healthy eating policy evaluation	119
4.4	A model to implement a healthy eating policy in school	125
	4.4.1 Multi-stakeholder collaboration	126
	4.4.2 Setting ambitious goals	127
	4.4.3 Public commitment	127
	4.4.4 Implementation of healthy eating policy for	128
	preschool children	
	4.4.5 Evaluation and adjustment a healthy eating policy	129

Chapter 5 Di	scussion	152
5.1	The existing implemented healthy eating policy for	153
	preschool children in public schools in Phrae province,	
	Thailand 1818 18	
5.2	Developing a healthy eating policy for preschool children;	156
	Different dimensions of policy implementation and what	
	were the barriers and facilitating factors to implement the	
	developed healthy eating policy	
5.3	The effects of the developed healthy eating policy on	178
	changes in diet in schools	
5.4	A model to implement healthy eating policy in schools	182
5.5	Strength and weakness of this study	184
5.6	A 3-day record for dietary assessment	186
5.7	Techniques of policy development	188
Chapter 6 Co	onclusion	192
6.1	Summary	192
6.2	Conclusions	198
6.3	Implications	199
6.4	Recommendations for future research	199
6.5	Recommendation for policy maker at various levels in	200
	implementing healthy eating policy for preschool children

LIST OF TABLES

T	able	Page
1	The existing school food policies implemented	131
	in public schools in Amphur Muang,	
	Phrae Province, Thailand.	
2	The existing school food and nutrition curricula for	132
	preschool children	
3	The involvement of staff, family and community in nutrition	133
	education and food policies in schools	
4	Distribution of focus groups and participants	134
5	The processes of promoting the healthy eating policy for	134
	preschool children	
6	Outline of activities launched in the intervention schools	135
7	The distribution of the participants in focus group discussion	136
8	The mean total scores of the existing implemented healthy	136
	eating policy, and the mean points of policy changes in intervention	
	schools and control schools	
9	The changes of the policy implementation during 1 year research	137
	in the intervention schools	
10	The changes of the policy implementation during 1 year research	138
	in the control schools	

11	Description of the changing policy implementation during 1 year	140
	research in the intervention schools	
12	Description of the changing policy implementation during 1 year	144
	research in the control schools	
13	Demographic characteristics of preschool children according	148
	to school groups	
14	Demographic characteristics of preschool children's families	149
	according to school groups	
15	Snack groups and their components, used in the Study	150
16	Mean frequencies of daily intakes from each snack category	150
17	Statistically significant differences between frequencies of	151
	preschool children's dietary intakes in control and intervention	
	schools at baseline and at evaluation
