ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to my advisors, Assoc. Prof. Dhirawat Jotikasthira, Dr. Wikanda Khemaleelakul, Dr. Supassara Sirabanchongkran and Dr. Janya Apisariyakul for all their valuable advice and proof-reading of this thesis.

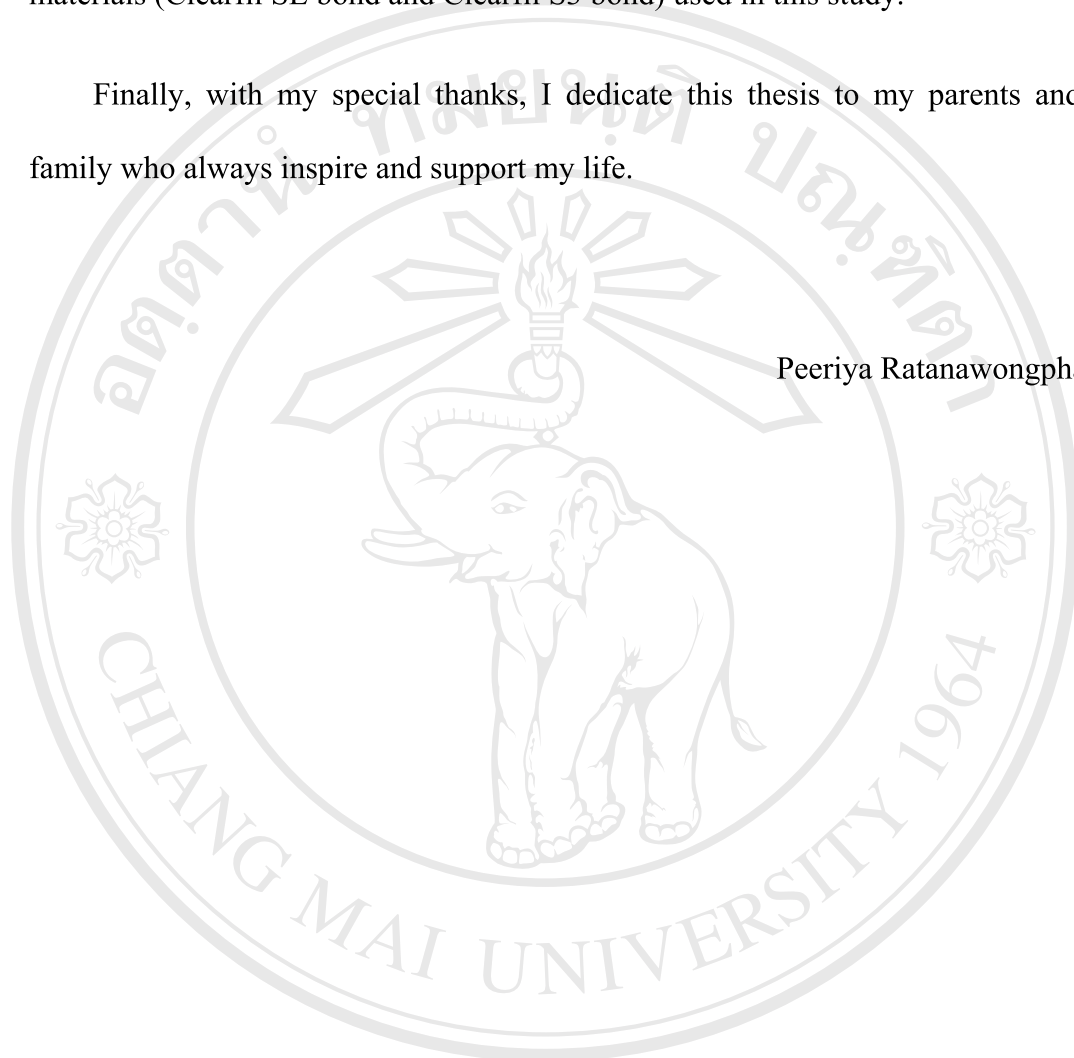

I wish to express my thanks to the Faculty of Dentistry, Chiang Mai University for financial support and for the use of its bonding supplies and equipment, incubator, thermocycling machine and universal testing machine (Instron®), to Dr.Thepparat Khemaleelakul, Department of Restorative Dentistry and Periodontics for helpful comments pertaining to the thermocycling machine and universal testing machine (Instron®), to Dr.Narumanas Korwanich, Department of Community Dentistry for his valuable suggestions and for the statistical analysis and interpretation, to the Department of Orthodontics for allowing me to use materials and equipment and for financial support, and finally to my friends for their assistance, to Dr. M. Kevin O Carroll, Professor Emeritus of the University of Mississippi School of Dentistry, USA, and Faculty Consultant at Chiang Mai University, Faculty of Dentistry, and finally to my friends for their assistance.

I gratefully acknowledge 3M Unitek, California, USA for supplying the materials (Clarity® ceramic brackets, APC Plus Clarity™ ceramic brackets and

Transbond XT™), and the cooperation of Kuraray Dental, Thailand for supplying the materials (Clearfil SE bond and Clearfil S3 bond) used in this study.

Finally, with my special thanks, I dedicate this thesis to my parents and my family who always inspire and support my life.

Peeriya Ratanawongphaibul
