ACKNOWLEDGEMENTS

I would like to express my sincere thanks and appreciation to my advisor, Associate Professor Dhirawat Jotikasthira, for his helpful guidance, excellent advice, proof-reading of this thesis and encouragement throughout the study. I also would like to express my grateful thanks to my co-advisors, Associate Professor Doctor Prachya Kongtawelert and Associate Professor Doctor Siriwan Ongchai for their suggestions and guidance concerning the biochemical analysis. I wish to gratefully thank Dr. Peraphan Pothacharoen for her assistance, skill and experience in laboratory procedures.

My sincere application is extended to Assistant Professor Piyanart Chatiketu for her suggestions on statistics. I would like to express my recognition to Miss Prakaimook Sarhaithong for her compassion and advice. I wish to thank Dr. M. Kevin O Carroll, Professor Emeritus of the University of Mississippi School of Dentistry, USA, and Faculty Consultant at Chiang Mai University Faculty of Dentistry, Thailand, for his assistance in the preparation of the thesis.

I wish to express my gratitude to the Thailand Excellent Center for Tissue Engineering, Faculty of Medicine, and the Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University for facilitating my access to equipment and work places.

Many thanks are due to my friends and staffs in the Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University for

their suggestions and encouragements. In addition, I gratefully acknowledge the essential role of the patients for their forbearance and willingness to take part in this study. I would like to acknowledge the Faculty of Dentistry, Chiang Mai University for the financial support that made this work possible. I wish to thank Renew Biocare co., Ltd. for the miniscrew implants supported to use in this study.

Finally, I am deeply indebted to my parents for their love and encouragement during this study. I would like to dedicate this thesis to my parents, who have a wonderful way of giving, helping, teaching, and, especially, loving.

Sirinya Rungtawekit
