

The background of the page features a large, light gray watermark of the Chiang Mai University logo. The logo is circular and contains the Thai text 'มหาวิทยาลัยเชียงใหม่' at the top, 'CHANG MAI UNIVERSITY' at the bottom, and the year '1964' on the right side. In the center of the logo is an elephant standing under a sunburst. The text 'CHAPTER VI' is centered above the main text.

## CHAPTER VI

### CONCLUSIONS

This study has identified SNPs in *ENAM* in two Thai patients with hypoplastic AI. These SNPs in *ENAM* are not pathogenic, but these variants may increase the risk of hypoplastic AI. The present study indicates that AI in these studied families is not caused by *ENAM* mutations but may be caused by mutations of other genes.
