

## TABLE OF CONTENTS

	<b>Page</b>
Acknowledgements	iii
Abstract (Thai)	v
Abstract (English)	vii
Table of Contents	ix
List of Tables	xii
List of Figures	xiii
<b>Chapter 1</b>	
Introduction	1
1.1 Statement and the Signification of the Problem	1
1.2 Overview	6
1.3 Objectives of the Study	9
1.4 Policy Relevance	9
1.5 Structure of the Dissertation	10
<b>Chapter 2</b>	
Methodology	11
2.1 Extreme Value Theory	11
2.2 Univariate Block Maxima	11
2.3 Univariate Peak-Over-Threshold	13
2.4 Bivariate Block Maxima	14
2.5 Bivariate Threshold Exceedances	17
2.6 Extreme Value Copulas	18
<b>Chapter 3</b>	
Predicting Malaysian palm oil price using Extreme Value Theory	21
3.1 Introduction	22
3.2 Literature Review	24

3.2.1	Major palm oil producers and production trends	24
3.2.2	Forecasting palm oil prices	25
3.2.3	Use of EVT in forecasting extreme events in finance and natural disasters	26
3.3	Analytical framework	27
3.3.1	The Extreme Value Theory	27
3.3.2	Block Maxima model	27
3.3.3	Peak-Over-Threshold model	28
3.4	Empirical results	29
3.4.1	Results from the BM model	30
3.4.2	Results from the POT model	31
3.4.3	Discussion	32
3.5	Conclusion	32
Chapter 4	Factors affecting palm oil price based on Extremes Value Approach	41
4.1	Introduction	42
4.2	Literature Review	44
4.3	Data and Methodology	46
4.3.1	Bivariate Extreme Value	46
4.3.2	Bivariate Block Maxima	46
4.3.3	Bivariate Threshold Exceedances	47
4.4	Empirical Results	49
4.4.1	Bivariate Block Maxima	49
4.4.2	Bivariate Threshold Exceedances	50
4.5	Conclusion	50
Chapter 5	Application of Extreme Value Copulas to Palm Oil Prices Analysis	58
5.1	Introduction	59
5.2	Univariate EVT and GEV distribution	61
5.3	Copulas and Extreme Value Copulas	62

5.4 Data	64
5.5 Empirical Results	64
5.5.1 The parameter estimation of the GEV model	64
5.5.2 The parameter estimation of the extreme value Copulas	64
5.6 Conclusion	65
Chapter 6 Conclusion	68
6.1 Summary of the Study	68
6.2 Suggestion for Further Study	70
References	72
Appendices	78
Appendix A	79
Appendix B	104
Appendix C	125
Curriculum Vitae	138

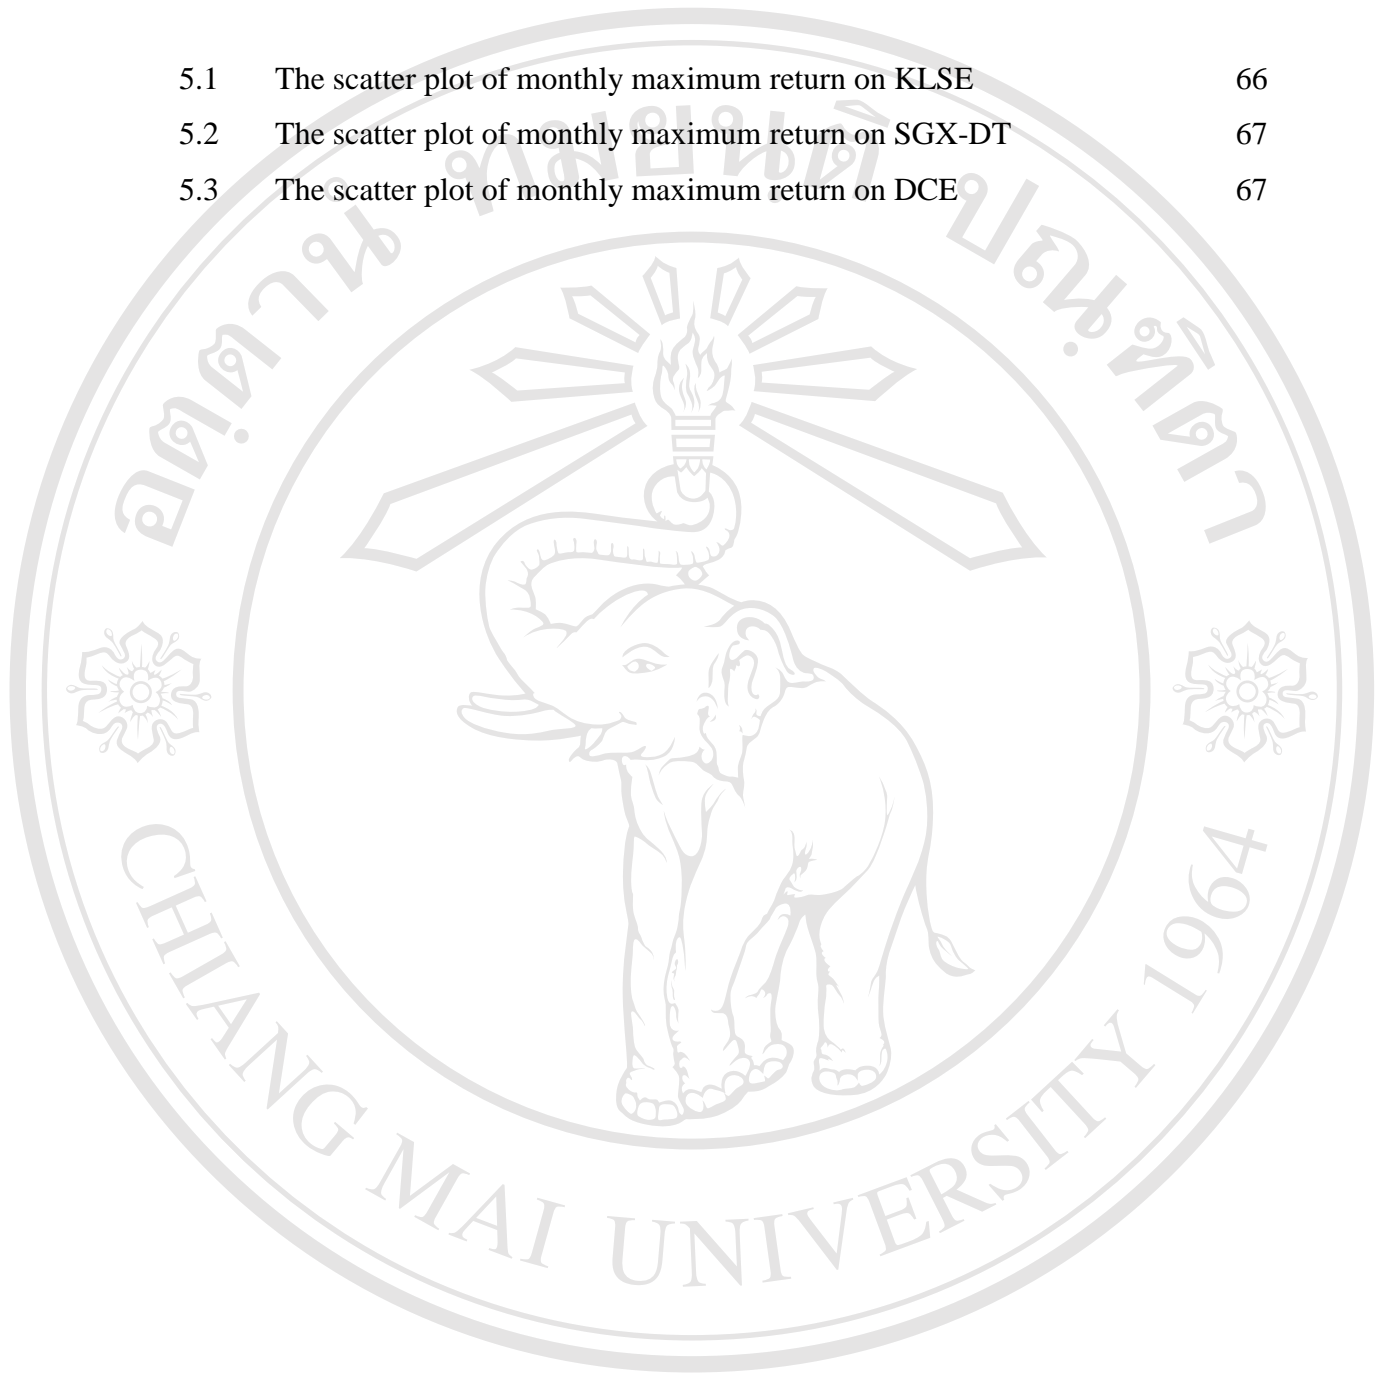

## LIST OF TABLES

<b>Table</b>	<b>Page</b>
1.1 World Productions of Major energy crops (Million Metric Tons)	2
1.2 The Exporter of Palm Oil (Thousand Metric Tons)	3
1.3 The Importer of Palm Oil (Thousand Metric Tons)	4
3.1 Descriptive statistics of the Malaysian palm oil price growth rate (July 1986 – June 2011)	33
3.2 T-year return/growth level based on GEV model (BM approach)	34
3.3 T-year return/growth level based on GPD model (POT approach)	34
4.1 The descriptive statistics of Growth rates of Palm oil, Soybean oil and Crude oil prices	51
4.2 Bivariate Block Maxima Palm oil and Soybean oil prices, Palm oil and Crude oil prices	52
4.3 Bivariate Threshold Exceedances Palm oil and Soybean oil prices, Palm oil and Crude oil prices	52
5.1 The parameter estimation results using the ML method based on GEV model	65
5.2 Estimation of copula parameter	66

## LIST OF FIGURES

<b>Figure</b>		<b>Page</b>
1.1	Palm oil monthly prices, Jul 1986 - Jul 2011	5
3.1	Palm oil monthly price, Jul 1986 - Jul 2011	35
3.2	The scatter plot of annual maximum palm oil price growth rate (PPGR)	35
3.3	Diagnostic plots for GEV fit to the annual maximum PPGR	36
3.4	The scatter plot of monthly PPGR	37
3.5	Mean Residual Life Plot of PPGR	38
3.6	Parameter stability plots for PPGR	39
3.7	Diagnostic plots for GPD fit to PPGR	40
4.1	Palm oil daily price, Jul 1988 - Jan 2012	52
4.2	Palm oil and Soybean oil daily prices, Jul 1988 - Jan 2012	53
4.3	Palm oil and Crude oil daily price, Jul 1988 - Jan 2012	53
4.4	Bivariate monthly maxima of growth rate of palm oil and soybean oil prices	54
4.5	The bivariate logistic distribution function between growth rate of Palm oil and Soybean oil prices.	54
4.6	Bivariate monthly maxima of growth rate of palm oil and crude oil prices	55
4.7	The bivariate logistic distribution function between Growth rate of Palm oil and Crude oil prices.	55
4.8	Bivariate threshold exceedances of growth rate of palm oil and soybean oil prices	56
4.9	The bivariate HR distribution function between growth rate of Palm oil and Soybean oil prices	56
4.10	Bivariate threshold exceedances of growth rate of palm oil and crude oil prices	57
4.11	The bivariate asymmetric negative logistic distribution function between growth rate of Palm oil and Crude oil prices	57

5.1	The scatter plot of monthly maximum return on KLSE	66
5.2	The scatter plot of monthly maximum return on SGX-DT	67
5.3	The scatter plot of monthly maximum return on DCE	67
