ACKNOWLEDGEMENT

I would like to acknowledge the Ministry of University Affair on providing good opportunity and scholarship for my graduate study. This grant highly supports my dissertation and new knowledge.

I am grateful to the Faculty of Veterinary Medicine for supporting many facilities to dissertate the update knowledge for my thesis and many facilities to support my laboratory techniques.

I would like to express my sincere gratitude to my supervisor, Associated Professor Dr. Suvichai Rojanasthien for his kindly advices and guidance of every step of my thesis.

Also, thanks to Assistant Professor Dr. Kittisak Ajariyakhajorn and Associated Professor Prasit Tharavijitkut who give me a nice opportunity and suggestion to solve problems.

I would like to give my thanks to Mr. Wichai Hanpanichpan and all staffs of the milk quality laboratory, Chiang Mai Animal Product Unit, Chiang Mai Provincial Livestock Office for their supporting in some laboratory techniques.

I also extend my thanks to Chiang Mai Dairy Cooperative, Pahtung-Huaymo Dairy Cooperative, Maejo Dairy Cooperative, Chaiprakarn Dairy Cooperative, Mae-on Dairy Cooperative and Lamphun Dairy Cooperative for their support of the study, interviewing and sample collection for a long time.

I would like to express my sincere thanks to all dairy farmers in Chiang Mai and Lamphun Province for their kindness, they allowed me to interview and observe their management during their working time.

I deeply thank all staffs in Clinic for Ruminant and the Satellite Clinic, Faculty of Veterinary Medicine, Chiang Mai University for their lovely friendship, many suggestions and helping in collecting samples and farm-data.

Finally, I am deeply grateful to my family for their support, understanding and encouragement through out my study.
