ACKNOWLEDGEMENT

I have had the extremely good luck of being instructed by Dr. Tippawan Prapamontol, Dr. Chaisuree Suphavitai, Dr. Jiraprapa Wipasa, Dr. Mookda Pattarawarapan, and Assoc. Prof. Dr. Watchara Kasinrek from Chiang Mai University. I am grateful of their generous supervision through out the time of research studies.

I am also grateful of Dr. Prachaub Chaibu's comments on my research work and my thesis presentation.

I would like to thank Prof. Thira Sirisanthana, the Director of the Research Institute for Health Sciences, Chiang Mai University, for awarding me a scholarship and providing research facilities.

I also would like to thank the Department of Chemistry, the Faculty of Science, Chiang Mai University, for providing facilities on organic synthesis and related work.

I would like to express my gratitude to Ms. Bupha Prapaluck, Ms. Tanyaporn Kerdnoi, Dr. Ratana Asawasinsopon, Ms. Wrune Jit-Aree and all colleagues at the Research Institute for Health Sciences for their support during my study.

Finally, the fulfillment of the thesis is closely connected with the everlasting and infinite love of my family, so that I could concentrate on the study endlessly.
